## ***Basic Legal Research for Paralegals***

2007-02-02

this book describes not rules of law but rules about law the tools that lawyers use to lawyer a law school education is more one of learning about the law than learning the law no one person can know all the law but most can learn the tools that lawyers and judges use to analyze interpret and apply a law any law knowledge of the rules about law distinguishes the way a lawyer approaches a problem from the way a layman would approach that problem a law student or paralegal needs a foundation of knowledge about the legal method the tools that are used regardless of what area of law is involved the object of this work is to show how judges and lawyers well judge and lawyer more specifically it covers the intrinsic and extrinsic guides to statutory construction the guides for analysis and use of case law and the intrinsic and extrinsic guides to contract interpretation its primary purpose is to explain the fundamental method of analysis of any legal issue by discussing the tools for extracting meaning from legal texts about the author the author practiced law for over 35 years during his tenure as counsel with a major financial services corporation he was responsible for its law department s paralegals and paralegal development program those duties led him to develop the three foundation courses that are now available in book and digital form legal logic legal method and legal promise

## ***Legal Method***

2005-12-31

the substance of this book is derived from lectures presented to working paralegals as the first in a series of foundation courses intended to supplement their prior education and experience and to enhance their capacity to more competently handle tasks normally handled by lawyers the course and this book is a condensed version of a full semester course in aristotelian logic tailored to the needs of people engaged in the analysis of legal issues either as employee or as student there are several primary objectives the first is not to create logicians but to foster the students awareness of their own reasoning processes by discussing the importance of words their definitions uses and relationships and to provide tools for testing whether conclusions are valid or invalid using formal logical analysis the second broader objective is to provide a foundation for further study and use of the principles of effective communication and interpretation of communication another more specific objective is to show the use of the tools of logic in a legal context particularly the formal analysis of case law about the author the author has practiced law since 1967 during his tenure as counsel with a major financial services corporation he was responsible for its law department s paralegals and paralegal development program those duties led him to develop the three foundation courses that are now available in book and digital form legal logic legal promise and legal method
