the idea of a right to privacy which arose in reaction to the rapid rise of newspapers instant photography and the paparazzi of the 19th century has evolved into a constitutional right in much of the developed world it is enshrined in hong kong through articles 28 29 30 and 39 of the basic law hong kong stands proud as the first jurisdiction in asia to enact legislation to safeguard personal data in the form of the personal data privacy ordinance cap 486 the ordinance which came into force in 1996 at its centre are the six data protection principles based on the 1980 oecd guidelines the office of the privacy commissioner for personal data was created under this legislation to provide oversight and ensure

compliance the octopus scandal in mid 2010 eventually led to substantial changes being made to the ordinance that were enacted in 2012 and 2013 the main amendments being the direct marketing provisions and the provision of legal assistance and representation to aggrieved persons in this digital age the ordinance is proving to be the main safeguard of our privacy rights the data protection principles seek to create broad common principles based on fairness that apply to the public and private sectors the passage of twenty years since the enactment of the ordinance has given rise to a substantial body of case law and administrative decisions on these principles and the other provisions of the ordinance the new amendments have already been the subject of judicial scrutiny this publication which replaces its predecessor has the dual aim of becoming a practitioner s guide on the important subject of personal data privacy containing as it does a detailed exposition of the principles and provisions in the ordinance and a comprehensive source of reference materials and of enabling the privacy commissioner to discharge his major duty to promote awareness and understanding of the ordinance the second edition includes not only a full discussion of these principles but also summaries of all the seminal cases and administrative appeals board rulings in this area as well as a comprehensive list of all the pertinent cases

Nutrition Counseling and Education Skills: A Practical Guide 2023-01-19

Ethics in Health Administration: A Practical Approach for Decision Makers 1830

the church exists in the world and our ministry is inextricably social in nature practical theology takes this seriously and asks us to reflect on our practice of ministry in both church and society this book attends to our practice as individuals in ministry to our corporate practice as congregations in ministry and to our practice as christians within the wider social and natural world practical theology in church and society brings into sharper focus two perspectives on practical theology one is the view through the wide angle lens of justice oriented action which hopes for liberation this view encompasses a broad vista of social forces for justice and injustice when evaluating local movements and local ministries the other perspective takes the narrower focus of the action reflection model as it is used to zoom in on individual actions and particular practices of ministry such as pastoral care the purpose of the book is to integrate these two perspectives on practical theology it explicates a cyclical method for doing theology that has corollaries within the disciplines of practical theology liberation theology missiology congregation studies and ministerial leadership the volume

provides resources for developing more socially and ecologically engaged ministries and it draws implications for ministerial education

A Practical Guide to Building Professional Competencies in School Psychology 2014-07-15

The Form of Practical Knowledge 1881

any sound practical philosophy must be clear on practical concepts concepts in particular of life action and practice this clarity is michael thompson s aim in his ambitious work in thompson s view failure to comprehend the structures of thought and judgment expressed in these concepts has disfigured modern moral philosophy rendering it incapable of addressing the larger questions that should be its focus in three investigations thompson considers life action and practice successively attempting to exhibit these interrelated concepts as pure categories of thought and to show how a proper exposition of them must be aristotelian in character he contends that the pure character of these categories and the aristotelian forms of reflection necessary to grasp them are systematically obscured by modern theoretical philosophy which thus blocks the way to the renewal of practical philosophy his work recovers the possibility within the tradition of analytic philosophy of hazarding powerful generalities and of focusing on the larger issues like life that have the power to revive philosophy as an attempt to relocate crucial concepts from moral philosophy and the theory of action into what might be called the metaphysics of life this original work promises to reconfigure a whole sector of philosophy it is a work that any student of contemporary philosophy must grapple with
