in poetic culture christopher beach questions the cultural significance of poetry both as a canonical system and as a contemporary practice by analyzing issues such as poetry s loss of audience the anthology wars of the 1950s and early 1960s the academic and institutional orientation of current poetry the poetry slam scene and the efforts to use television as a medium for presenting poetry to a wider audience beach presents a sociocultural framework that is fundamental to an understanding of the poetic medium while calling for new critical methods that allow us to examine poetry beyond the limits of the

accepted contemporary canon and beyond the terms in which canonical poetry is generally discussed and evaluated beach also makes a compelling case for poetry and its continued vitality both as an aesthetic form and as a site for the creation of community and value

self and sensibility in contemporary american poetry is an inquiry into the cultural roles lyric poetry does and can play in our age charles altieri first establishes a dominant mode in serious american poetry by identifying current assumptions inherent in the teaching of creative writing and the awarding of prizes and contracts the dominant mode is seen not as a prescribed style but as a set of styles that share assumptions and that tend to seek the same narrow audience altieri views this mode as essentially scenic presenting in brief dramatic settings subdued carefully wrought emotions that build to a climactic tactile image in examining why the style appeals the author suggests that we find in the dominant mode models of the self of the power of language and of the nature of emotions that are very close to the prudential narcissism of the professional classes two theses follow that contemporary poetry can be approached as a paradigm for analysing literature in cultural terms since we know the culture well on independent grounds and that the cultural analogies help demonstrate the pressures on younger poets to explore styles that break from or attempt to overthrow the dominant mode

this interdisciplinary study participates in the ongoing critical conversation about postwar american poetry and visual culture while advancing that field into the arena of the museum turning to contemporary poems about the visual arts that foreground and interrogate a museum setting the book demonstrates the particular importance of the museum as a cultural site that is both inspiration and provocation for poets the study uniquely bridges the dual canon in contemporary poetry and calls the lyric avant garde distinction into question

by analyzing museum sponsored anthologies as well as poems by john ashbery richard howard kenneth koch kathleen fraser cole swensen anne carson and others through these case studies of poets with diverse affiliations the author shows that the boom in ekphrasis in the past 20 years is not only an aesthetic but a critical phenomenon a way that poets have come to terms with the critical dilemmas of our moment highlighting the importance of poets peripheral vision awareness of the institutional conditions that frame encounters with art the author contend that a museum visit becomes a forum for questioning oppositions that have preoccupied literary criticism for the past 50 years homage and innovation modernism and postmodernism subjectivity and collectivity the study shows that ekphrasis becomes a strategy for negotiating these impasses a mode of political inquiry a meditation on canonization a venue for comic appraisal of institutionalization and a means of site specific feminist revision in a vital synthesis of critique perspicacity and pleasure

our appreciation of american poetry is as influenced by the personas presented in the poems as by public perception of the poets themselves emily dickinson peeking from behind a doorway with large dark eyes is an indelible image superimposed over her spare enigmatic poems the grand gestures of walt whitman s voice have much to do with our reading of song of myself and we cannot hear mending wall or mowing without thinking of the image of the rustic sly farmer poet that robert frost so carefully cultivated the moral authority of the poet reveals itself through the poems as well and it is crucial to the meaning of the poem holden argues if art is to elevate life part 1 of the old formalism the practice is a close study of some of the conventions and developments in contemporary american poetry with such topics as sex and poetry rhetoricity and sensibility holden shows lucidly how character or lack of it is revealed in poetry in personae the second part he gives a studied reading of a group of several admired poets such as richard hugo mary kinzie ted kooser and william stafford holden uses biographical references and personal contacts with the poets to strengthen the notion of character revealed in poetry this book takes a decided stand in the ongoing debate of the past two decades about the relationship of american poetry to american culture in an age when image dominates word and the business of poetry is nearly as celebrity laden as hollywood holden takes us past the media glitz backstage where the poems are waiting to be read quite simply in a clear incisive manner he teaches us how to read well again

writing with the vigor and elan that readers have come to expect from his many astute reviews and essays willard spiegelman maintains that contemporary american poets have returned to the poetic aims of an earlier era to edify as well as to delight and thus to serve the didactic muse what spiegelman says about individual poets such as nemerov hecht ginsberg pinsky ammons rich and merrill among others is wonderfully insightful furthermore his outlook on their work the way he takes quite literally the teacherly elements of their poems challenges long standing conceptions both about contemporary writing and about the poetry of the eliot pound stevens williams generation beginning the book with a meditation on w h auden s legacy to american poets spiegelman ends with a discussion of the multiple scenes of learning in merrill s the changing light at sandover which he identifies as not only the major epic poem of the second half of the twentieth century but also as the period s most important georgic a textbook full of scientific mythic artistic and human instruction the didactic muse reminds us that poets have traditionally acknowledged their function as teachers from horace s advice that poetry should please and instruct to robert frost s aphorism that a poem begins in delight and ends in wisdom whereas many of the critical remarks of the most important romantic and modern poets suggest their desperate attempts to separate poetry from instruction spiegelman demonstrates that their practices often contradicted their theories and he shows that our best contemporary poets are now embracing the older classical paradigms originally published in 1989 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting

them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905
