from a variety of backgrounds and sectors providing a heady mix of the best up to date and original sales tactics series was previously exclusive to wh smiths very successful selling x copies now available throughout trade and direct channels practical and fun to use simple and unique format great advice mixed with a dash of irreverence no matter what you teach there is a 100 ideas title for you the 100 ideas series offers teachers practical easy to implement strategies and activities for the classroom each author is an expert in their field and is passionate about sharing best practice with their peers each title includes at least ten additional extra creative bonus ideas that won't fail to inspire and engage all learners essential for busy secondary form tutors this book will inspire form time ideas that are constructive exciting yet take little preparation activities include community builders pshe related topics creative thinking activities and a variety of active learning techniques to engage your students in discussions while this book mostly focuses upon interesting worthwhile and fun activities to do with a registration group it also includes some tips and advice on how to fulfill pastoral care responsibilities of pupils in a form group this volume takes a fresh and innovative approach to the history of ideas of work concerning perceptions attitudes cultures and representations of work throughout antiquity and the medieval and early modern periods focusing on developments in europe the contributors approach the subject from a variety of angles considering aspects of work as described in literature visual culture and as perceived in economic theory as well as external views of workers the volume also looks at the meaning of work for the self perception of various social groups including labourers artisans merchants and noblemen and the effects of this on their self esteem and social identity taking a broad chronological approach to the subject provides readers with a cutting edge overview of research into the varying attitudes to work and its place in pre industrial society today the classics of the western canon written by the proverbial dead white men are cannon fodder in the culture wars but in the 1950s and 1960s they were a pop culture phenomenon the great books of western civilization fifty four volumes chosen by intellectuals at the university of chicago began as an educational movement and evolved into a successful marketing idea why did a million american households buy books by hippocrates and nicomachus from door to door salesmen and how and why did the great books fall out of fashion in a great idea at the time alex beam explores the great books mania in an entertaining and strangely poignant portrait of american popular culture on the threshold of the television age populated with memorable characters a great idea at the time will leave readers asking themselves have i read lucretius's de rerum natura lately if not why not long a shadowy figure in the history of philosophy it was only in the twentieth century that giambattista vico 1668 1744 achieved renown as a major and original thinker there has been a steadily widening interest in this figure who had he been known in his own day might have altered the course of european thought much has been written in an attempt to clarify his historical stature but in time and idea a robert caponigri approaches vico's thought in terms of its relevance to problems of modern philosophy viewing the essential problem of twentieth century philosophy as the elimination of human subjectivity from nature caponigri shows how vico offers us a principle for the vindication of our own spirituality through history in caponigri's reading vico establishes an absolute dichotomy between nature and history the latter is seen as the sum of the active fully realized human spirit and thus the context for the true understanding of human nature although vico's major work the new science incorporates vast amounts of concrete historical research and construction caponigri's focus is on vico's theoretical apparatus following an introductory biographical chapter the author turns to vico's theory of history emphasizing its importance as a genuine philosophical undertaking rather than mere methodology caponigri shows how the speculative problem of history first presented itself to vico in matters of jurisprudence and natural law from which he derived the concepts of time and idea as the terms in which the historical process of culture becomes comprehensible he then introduces the human subject as the principle of the synthesis of time and idea and

discusses the vichian concept of the modification of the human mind and his idea of providence as the rectifying principle of human history first published in 1953 time and idea remains an essential contribution to the ongoing dialog on vico s work circle time stimulates learning in all areas of development from the improvement of social skills and positive relationships to encouraging children to listen to each other within a caring and respectful environment judith harries brings together creative ideas for circle time where learning can be shared and music and drama can be enjoyed the book includes circle time activities and games that cover all of the early learning goals through the sharing of thoughts feelings and experiences it can also be used across the curriculum including helping children with literacy and mathematics through phonics and number games this timeless collection of ideas featuring colourful and fun photography is a fantastic resource with many new activities for circle time as well as some old favourites this book contains substansive information about creativity how to develop and build the creative nest how the company and society gains and grows with creative ideas how to build up a creative personality how a creative person changes the way of thinking and functioning of the world with unique ideas inventions and innovations the daughter of a british foreign service officer moira hodgson spent her childhood in many a strange and exotic land she discovered american food in saigon ate wild boar in berlin and learned how to prepare potatoes from her eccentric irish grandmother today hodgson has a well deserved reputation as a discerning critic whose columns in the new york observer were devoured by dedicated food lovers for two decades a delightful memoir of meals from around the world complete with recipes it seemed like a good idea at the time reflects hodgson s talent for connecting her love of food and travel with the people and places in her life whether she s dining on moroccan mechoui a whole lamb baked for a day over coals or struggling to entertain in a tiny greenwich village apartment her reminiscences are always a treat

1953 ten years ago the founders of the indian school of business hyderabad articulated a vision that was as daunting to execute as it was simple to state to build a world class business school in india the rest is history within a decade the isb grew from a start up venture to globally top ranked business school named among the top twenty business schools in the world three years in a row with the distinction of being the youngest business school ever to enter the world top twenty rankings an idea whose time has come traces the isb s eventful history and also examines the reasons that account for the institute s success what emerges is a tale of perseverance and dedication of challenges met and rewards reaped and of an unshakeable idea that was painstakingly transformed into an invincible institution it is no wonder that the isb continues to attract thousands of confident purposeful men and women every year and moulds them into talented professionals
