Morton's Lincolnshire [afterw.] Morton's sixpenny almanack and diary (with Compendium). 1879 in this game changing revisionist history a leading scholar of the renaissance shows how four powerful women redefined the culture of european monarchy in the glorious sixteenth century the sixteenth century in europe was a time of chronic destabilization in which institutions of traditional authority were challenged and religious wars seemed unending yet it also witnessed the remarkable flowering of a pacifist culture cultivated by a cohort of extraordinary women rulers most notably mary tudor elizabeth i mary queen of scots and catherine de medici whose lives were intertwined not only by blood and marriage but by a shared recognition that their premier places in the world of just a few dozen european monarchs required them to bond together as women against the forces seeking to destroy them if not the foundations of monarchy itself recasting the complex relationships among these four queens maureen quilligan a leading scholar of the renaissance rewrites centuries of historical analysis that sought to depict their governments as riven by personal jealousies and petty revenges instead when women ruled the world shows how these regents carefully engendered a culture of mutual respect focusing on the gift giving by which they aimed to ensure ties of friendship and alliance as quilligan demonstrates gifts were no mere signals of affection but inalienable possessions often handed down

through generations that served as agents in the creation of a steep social hierarchy that allowed women to assume political authority beyond the confines of their gender with brilliant panache amanda foreman quilligan reveals how eleven year old elizabeth i s gift of a handmade book to her stepmother katherine parr helped facilitate peace within the tumultuous tudor dynasty and how catherine de medici s gift of the valois tapestries to her granddaughter the soon to be grand duchess of tuscany both solidified and enhanced the medici family s prestige quilligan even uncovers a book of poetry given to elizabeth i by catherine de medici as a warning against the concerted attack launched by her closest counselor william cecil on the divine right of kings an attack that ultimately resulted in the execution of her sister mary queen of scots beyond gifts when women ruled the world delves into the connections the regents created among themselves connections that historians have long considered beneath notice like fellow soldiers in a sororal troop quilligan writes these women protected and aided each other aware of the leveling patriarchal power of the reformation they consolidated forces governing as sisters within a royal family that exercised power by virtue of inherited right the very right that protestantism rejected as a basis for rule vibrantly chronicling the artistic creativity and political ingenuity that flourished in the pockets of peace created by these four queens quilligan s lavishly illustrated work offers a new perspective on the glorious sixteenth century and crucially the women who helped create it
