The Nationalization of Politics

2004-03-29

the book analyses the transnational alpine region where historical social and geo economic specificities have led to a distinctive type of democracy and identity differentialist identities multi level consociational accommodation and corporatist intermediation are typical features of this region s consensual politics and the process of european integration adds further to this complexity these forms of consensual politics are challenged today by large and persistent populist parties that express strong anti elitist sentiments local identities and euro sceptic attitudes the book examines the defensive reaction of populist parties to the perceived threats of open borders multi culturalism and cheap labour and elite negotiations at all levels of governance protest attitudes translate into alternative views of european integration favouring proposals for an anti assimilationist and labour protective fortress as well as a religiously based europe of the people the book considers the possibility of a potential cleavage in the incipient european party system through alliances of losers of integration cutting across the left right alignment and overlapping with ethno linguistic centre periphery religious and rural urban factors that survived in the alpine region more than elsewhere an empirical analysis by a group of international experts focuses on the alpine areas of austria france germany italy slovenia and switzerland in which parties like fpÖ csu lega nord and schweizerische volkspartei have recently become crucial actors

Elections in Western Europe since 1815

2000

this book represents the first comprehensive study of how technocracy currently challenges representative democracy and asks how technocratic politics undermines democratic legitimacy how strong is its challenge to democratic institutions the book offers a solid theory and conceptualization of technocratic politics and the technocratic challenge is analyzed empirically at all levels of the national and supra national institutions and actors such as cabinets parties the eu independent bodies central banks and direct democratic campaigns in a comparative and policy perspective it takes an in depth analysis addressing elitism meritocracy de politicization efficiency neutrality reliance on science and distrust toward party politics and ideologies and their impact when pitched against democratic responsiveness accountability citizens input and pluralist competition in the current crisis of democracy this book assesses the effects of the technocratic critique against representative institutions which are perceived to be unable to deal with complex and global problems it analyzes demands for competent and responsible policy making in combination with the simultaneous populist resistance to experts the book will be of key interest to scholars and students of comparative politics political theory policy analysis multi level governance as well as practitioners working in bureaucracies media think tanks and policy making

strategic management competitiveness and

to many international experts politicians and commentators denmark stands out as an ideal 2023-09-23 cases 3rd edition by hitt society with a well functioning welfare state low levels of corruption and a high degree of michael a ireland a duane social and political stability like other countries however denmark faces challenges brought by south western hardcover

strategic management competitiveness and globalization concepts and cases 3rd edition by hitt michael a ireland r duane hoskisson robert e published by south western hardcover on by overall social changes particularly the challenges of maintaining a prosperous economy and the growing number of immigrants from different ethnic and religious backgrounds have left their mark on danish society over the past 50 years but how have danish voters reacted to these challenges in order to understand the foundation of the danish ideal the authors analyze voter behavior from the early 1970s until 2019 the danish voter investigates a series of interesting questions concerning voters reactions to the two macrosocial challenges and how these reactions impact the foundations for the ideal the individual chapters consider how the challenges have weakened the traditional class cleavage while giving rise to new divisions based on gender and education they also show how electoral polarization on economic redistribution has remained strong even in spite of depolarization in the parties positions on this dimension on cultural issues like immigration however the challenge of diversity has resulted in a dramatic increase in polarization among both parties and voters by investigating the drivers of political trust the authors show how voters respond to enacted policies the danish voter holds important insights for readers interested in the politics of western europe where countries face similar challenges indeed due to an electoral system open to new influences the danish case is an important test case for theories about political development of contemporary western societies publisher s website

2002-06

this book provides a comprehensive overview over the models of contemporary democracy its social cultural economic and political prerequisites empirically existing varieties and the two major challenges globalization and mediatization confronting established democracies today as the boundaries of the national political communities increasingly dissolve democracy as we know it is put into question similarly as the role of the media in politics increases the way established democracies function is being transformed the book covers the transformation of established democracies democracy s global expansion into new countries as well as its spread into supranational polities such as the european union it confronts head on democracy s constantly changing nature its diversity of institutions and practices its repeated need to respond to exogenous challenges and most importantly its perpetually unsatisfactory quest to make real existing democracy conform better to potentially ideal democracy

adapted from the groundbreaking bestseller principles of comparative politics third edition foundations of comparative politics presents a scientific approach to the rich world of comparative inquiry research and scholarship providing you a guide to cross national comparison and why it matters this condensed more accessible format introduces you to the key questions in comparative politics using brief insights from tools such as decision social choice and game theory to help you understand clearly why some explanations for political phenomena are stronger than others foundations concentrates on describing the core features of regimes and institutions and on analyzing how these fundamental attributes drive variation in the economic and political outcomes we care about most this approach more closely replicates what comparative scholars do constructing and testing theories on political phenomena over basic memorization of country specific facts to explain rather than describe illustrated with current examples that show the application of theory you will gain invaluable real world skills in critical thinking and empirical analysis that you will carry with you long after the course is over

Precolonial Legacies in Postcolonial Politics

2022-10-31

the death of the ruler poses a significant threat to the stability of any polity arranging for a peaceful and orderly succession has been a formidable challenge in most historical societies and it continues to be a test that modern authoritarian regimes regularly face and often fail drawing on a unique dataset of the life and fates of monarchs in all major monarchies in medieval and early modern europe the politics of succession documents how succession have historically been moments of violence and insecurity deaths of rulers were often associated with civil war and the shadow cast by looming successions caused coups and depositions but this book also shows that the development and spread of primogeniture the eldest son taking the throne mitigated the problem of succession in europe in the period after ad 1000 the predictability and stability that followed from a clear hereditary principle outweighed the problems of incompetent and irrational rulers sometimes inheriting power the data used in the book demonstrates that primogeniture reduced the risk of depositions and civil war following the inevitable deaths of leaders in this way hereditary monarchy helped create political stability and lengthen the time horizons of rulers and elites alike thereby facilitating state building the book thus sheds light on the rationale of a system of leader selection that today often appears illogical and outdated and it uses these findings to shed light on the key advantage of modern representative democracy its ability to complete power transfers peacefully
