since its birth as a motorcycle company in 1949 honda has steadily grown into one of the world s largest automakers and engine manufacturers as well as one of the most beloved most profitable and most consistently innovative multinational corporations what drives the company that keeps creating and improving award winning and bestselling models like the civic accord odyssey cr v and pilot according to jeffrey rothfeder what truly distinguishes honda from its competitors especially archrival toyota is a deep commitment to a set of unorthodox management tenets the honda way as insiders call it is notable for decentralization over corporate control simplicity over complexity experimentation over six sigma driven efficiency and unyielding cynicism toward the status quo and whatever is assumed to be the truth those are just a few of the ideas that the company s colorful founder soichiro honda embedded in the dna of his start up sixty five years ago as the first journalist allowed behind honda s infamously private doors rothfeder interviewed dozens of executives engineers and frontline employees about honda s management practices and global strategy he shows how the company developed and maintained its unmatched culture of innovation resilience and flexibility

and how it exported that culture to other countries that are strikingly different from japan establishing locally controlled operations in each region where it lays down roots

an in depth hard hitting account of the mistakes miscalculations and myopia that have doomed america s automobile industry in the 1990s detroit s big three automobile companies were riding high the introduction of the minivan and the suv had revitalized the

industry and it was widely believed that detroit had miraculously overcome the threat of foreign imports and regained its ascendant position as micheline maynard makes brilliantly clear in the end of detroit however the traditional american car industry was in fact headed for disaster maynard argues that by focusing on high profit trucks and suvs the big three missed a golden opportunity to win back the american car buyer foreign companies like toyota and honda solidified their dominance in family and economy cars gained market share in high margin luxury cars and in an ironic twist soon stormed in with their own sophisticatedly engineered and marketed suvs pickups and minivans detroit suffering from a good enough syndrome and wedded to ineffective marketing gimmicks like rebates and zero percent financing failed to give consumers what they really wanted reliability the latest technology and good design at a reasonable cost drawing on a wide range of interviews with industry leaders including toyota s fujio cho nissan s carlos ghosn chrysler s dieter zetsche bmw s helmut panke and gm s robert lutz as well as car designers engineers test drivers and owners maynard presents a stark picture of the culture of arrogance and insularity that led american car manufacturers astray maynard predicts that by the end of the decade one of the american car makers will no longer exist in its present form
