in 1938 anderl heckmair made the first ascent of the north face of the eiger a monumental climb that cemented his place in history in my life he tells the story of how he turned from a fragile child wrapped quite literally in cotton bindings into one of the most important mountaineers in the world leaving school in 1920 heckmair dedicated himself to climbing becoming a full time mountain vagabond penniless he lived in alpine huts and cycled from climb to climb even riding from germany to the high atlas mountains of morocco he rapidly developed as a mountaineer making an ascent of the walker spur in awful weather and a solo ascent of the matterhorn in walking shoes a feat that nobody believed but his crowning achievement climbed in full media glare would always be his eiger ascent events did not always run smoothly arrested after a quarrel with a farmer he escaped through a window never imprison mountain climbers in towers when arrested again his ice axes mistaken for deadly weapons while he slept on a park bench heckmair chose to stay put preferring the cell bunk to his bench at times the book ventures into darker territory as one of the great german climbers of the 1930s heckmair inevitably attracted the attention of the nazi party he found his eiger triumph twisted to suit their ends and he himself seated next to hitler at a party but at its heart my life is a celebration of adventure told in joyful engaging and relaxed style it is as full of life and passion for the mountains as anderl heckmair himself

what compels mountain climbers to take the risks that they do is it the thrill in the physical accomplishment in managing to defy the odds or both and why do they continue to do what they do in the face of such great danger in on the ridge between life and death david roberts confronts these questions head on as he recounts the exhilarating highs and desperate lows of his climbing career by the time he was twenty two roberts had already been involved in three fatal mountain climbing accidents and had escaped death himself by the sheerest of luck and yet as he acknowledges few things have brought him more joy than climbing in a famous essay on the subject written more than twenty years ago roberts judged climbing to be worth the risk he continues to climb to this day and several of his challenging routes in alaska have never been climbed since but in reassessing the emotional costs to himself and to loved ones he reaches a different conclusion one that is sure to cause controversy not only in climbing circles but among adventurers of all kinds candid and unflinching on the ridge between life and death is a compelling examination of the risks we take in order to feel more alive

few things suggest rugged individualism as powerfully as the solitary mountaineer testing his or her mettle in the rough country yet the long history of wilderness sport complicates this image in this surprising story of the premier rock climbing venue in the united states pilgrims of the vertical offers insight into the nature of wilderness adventure from the founding era of mountain climbing in victorian europe to present day climbing gyms pilgrims of the vertical shows how ever changing alignments of nature technology gender sport and consumer culture have shaped climbers relations to nature and to each other even in yosemite valley a premier site for sporting and environmental culture since the 1800s elite athletes cannot be entirely disentangled from the many men and women seeking recreation and camaraderie following these climbers through time joseph taylor uncovers lessons about the relationship of individuals to groups sport to society and nature to culture he also shows how social and historical contexts influenced adventurers choices and experiences and why some became leading environmental activists including john muir david brower and yvon chouinard in a world in which wild nature is increasingly associated with play and virtuous play with environmental values pilgrims of the vertical explains when and how these ideas developed and why they became intimately linked to consumerism

to the impartial observer britain does not appear to have any mountains yet the british invented the sport of mountain climbing and for two periods in history british climbers led the world in the pursuit of this beautiful and dangerous obsession unjustifiable risk is the story of the social economic and cultural conditions that gave rise to the sport and the achievements and motives of the scientists and poets parsons and anarchists villains and judges ascetics and drunks that have shaped its development over the past two hundred years the history of climbing inevitably reflects the wider changes that have occurred in british society including class gender nationalism and war but the sport has also contributed to changing social attitudes to nature and beauty heroism and death over the years increasing wealth leisure and mobility have gradually transformed climbing from an activity undertaken by an eccentric and privileged minority into a sub division of the leisure and tourist industry while competition improved technology and information and increasing specialisation have helped to create climbs of unimaginable difficulty at the leading edge of the sport but while much has changed even more has remained the same today s climbers would be instantly recognisable to their victorian predecessors with their desire to escape from the crowded complexity of urban society and willingness to take unjustifiable risk in pursuit of beauty adventure and self fulfilment unjustifiable risk was shortlisted for the boardman tasker prize in 2011

leni riefenstahl will always be remembered for her brilliant film of the 1936 olympic games in berlin still rated as one of the best documentaries ever made before that she was acclaimed for her roles in silent feature films when german cinema was in its artistic heyday in the 1920s she pioneered the box office success of such classic mountaineering dramas as the white hell of piz palu and then began to direct her own films the blue light was admired by hitler and led to her filming the wagnerian nuremberg rally of 1934 after the war she was shunned by the film industry despite a court in 1952 proclaiming her not guilty of supporting the nazis in a punishable way her undoubted charisma led to many affairs and grandiose schemes deep sea diving in her seventies and still filming wildlife in her nineties audrey salkeld has sifted the fact from the legend and gives us a moving portrait of the great movie star who suffered more in the wilderness than her enduring fame suggests

la montagna mi ha insegnato a non barare a essere onesto con me stesso e con quello che facevo se praticata in un certo modo è una scuola indubbiamente dura a volte anche crudele però sincera come non accade sempre nel quotidiano se io dunque traspongo questi principi nel mondo degli uomini mi troverò immediatamente considerato un fesso È davvero difficile conciliare queste diversità da qui l'importanza di fortificare l'anima di scegliere cosa si vuole essere e una volta scelta una direzione di essere talmente forti da non soccombere alla tentazione di imboccare l'altra
