the new book from the much loved author of the gran tour a chip shop in poznan and the marmalade diaries food fights fishing and french cooking bestselling author ben aitken s year of actively pursuing fun ben aitken wasn t getting enough he knew it and so did everyone else he was grumpy increasingly boring mostly joyless so he joined a lawn bowls club a week later he doubled down on the doldrums by learning to dance like they do in bollywood then with an almost entirely reformed selfhood winking appealingly just around the corner he started swimming in cold water and was back to square one despite the setbacks and hyperventilation it was becoming clear to him that the very pursuit of fun was a great way of not feeling naff and so he made a vow to have as much of the f stuff as he possibly could taking a liberal approach to the subject he sought out things that he used to find fun a long time ago i e food fights and wrestling things that he d never done before but reckoned could be fun boozy french cooking classes tantric sex things whose fun factor was less obvious and more down to earth nostalgia volunteering edible gardening watching chickens and things that he wasn t at all sure about but were fun according to other people gym classes caving tiktok unsurprisingly the results were mixed but he was undoubtedly left feeling better which left him asking if fun is the finest medicine why do we stop doing it

this book covers a great deal of ground spiritually philosophically and emotionally the subject matter is often weighty yet it doesn t feel like that at all no small feat when discussing the origins and cycles of life birth and death and everything in between moving from the particular to the universal to that place where we are all one the author uses moments from his life experience to help us better understand and appreciate our own journey often in an understated manner he points out that just below the surface of the ordinary lies this other world where the truly meaningful and abiding realities of our lives frequently go unnoticed he gently turns over the stones on our paths looking for the meaning hidden underneath often finding real gems you will meet yourself more than once in these pages

canada did not fight in the vietnam war but the conflict seized the canadian imagination with an energy that has persisted in war is here robert mcgill explains how the war contributed to a golden age for writing in canada as authors addressed the conflict they helped to construct an enduring myth of canada as liberal hospitable and humanitarian for many writers the war was one that canadians could and should fight against if not in person then on the page in this pioneering account of war related canadian literature mcgill observes how celebrated books of the era channel vietnam sometimes in subtle but pervasive ways he examines authors attempts to educate their readers about american imperialism and canadian complicity and he discusses how writers repeatedly used language evoking militarism and violence from the figure of the united states as a rapist to the notion of canada as a peaceable kingdom in order to make canadians feel more intensely about their country mcgill also addresses the recent spate of prize winning canadian novels about the war that have renewed vietnam s resonance in the wake of twenty first century conflicts involving america war is here vividly revisits a galvanizing time in world history and canadian life offering vital insights into the vietnam war s influence on how people think about canada its place in the world and the power of the written word to make a difference

if the divine liturgy really is as beautiful as we claim wouldn t more people attend wouldn t the church grow driven by our desire for growth we count we analyze we make charts and we strategize but often with few discernible results that is probably the result of focusing on secondary aspects of church life as we know the very existence of a church is a gift of god s presence and not the result of any particular actions taken by human beings for that reason church is primarily about being something rather than doing or achieving something so the growth of the church is not reflected in ever increasing numbers dollars and activities but rather in steadily growing conformity to the divine ideal so in order to evaluate ecclesial growth we will first have to ask what the church is supposed to be one answer to that question is captured in the four marks of the church given in the creed oneness holiness catholicity and apostolicity these four characteristics serve as a matrix or framework within which we can focus on the primary aspects of ecclesial being and help it grow and become what it was intended to be

despite the green benefits of rail travel canada has lost much of its railway heritage across the
country stations have been bulldozed and rails ripped up once the heart of communities large
and small stations and tracks have left little more than a gaping hole in canada's landscapes
this book revisits the times when railways were the country's economic lifeline and the station
the social centre here was where we worked played listened to political speeches or simply said
goodbye to loved ones never knowing when they would return the landscapes which grew
around the station are also explored and include such forgotten features as station hotels
restaurants gardens and the once common railway ymca railway companies often hired the
world's leading architects to design grand station buildings which ranged in style from chateau
esque to art deco even small town stations and wayside shelters displayed an artistic flare and
elegance although most have vanished the book celebrates the survival of that heritage in
stations which have been saved or indeed remain in use the book will appeal to anyone who has
links with our rail era or who simply appreciates the value of canada's built heritage
