Practical Operational Due Diligence on Hedge Funds

2016-02-04

batman has been one of the world s most beloved superheroes since his first appearance in detective comics 27 in 1939 clad in his dark cowl and cape he has captured the imagination of millions with his single minded mission to create a better world for the people of gotham city by fighting crime making use of expert detective skills high tech crime fighting gadgets and an extensive network of sidekicks and partners but why has this self made hero enjoyed such enduring popularity and why are his choices so often the subject of intense debate among his fans and philosophers alike

batman and ethics goes behind the mask to shed new light on the complexities and contradictions of the dark knight s moral code from the logic behind his aversion to killing to the moral status of vigilantism and his use of torture in pursuit of justice or perhaps revenge batman s ethical precepts are compelling but often inconsistent and controversial philosopher and pop culture expert mark d white uses the tools of moral philosophy to track batman s most striking ethical dilemmas and decisions across his most prominent storylines from the early 1970s through the launch of the new 52 and suggests how understanding the mercurial moral character of the caped crusader might help us reconcile our own a thought provoking and entertaining journey through four decades of batman s struggles and triumphs in time for the franchise s 80th anniversary batman and ethics is a perfect gateway into the complex questions of moral philosophy through a focused character study of this most famous of fictional superheroes

Batman and Ethics

the many problems we face in today s world among them war environmental destruction religious and racial intolerance and inappropriate technologies demand that we carefully re evaluate such issues as our relation to the environment the nature of progress ultimate purposes and human values these are all issues robert carter explains that are intimately linked to our perception of life s meaning while many books discuss life s meaning either analytically or prescriptively carter addresses values and ways of meaningful living from a broader perspective using japanese philosophy to augment his investigation he examines martin heidegger s distinction between dwelling and existing in the world lawrence Kohlberg s stage seven of human moral development and the works of viktor frankl carol Gilligan and Nel Noddings he applies hermeneutic and deconstructionist theory to the question of meaning and explores the feminist contribution to ethics and its relation to the interconnectedness of things celebrated in zen and shinto thought bridging various dichotomies such as east west reason emotion male female and caring justice carter shows that ethics environmental concern caring and joy in living are dependent on the growth and transformation of the self only by becoming aware of the interrelatedness of things carter reveals can we become as supple and as strong as the bamboo tree long the symbol of longevity and constancy

the classic new york times bestseller that has helped millions of women cope with and heal from the grief of losing their mothers although a mother's mortality is inevitable no book has discussed the profound lasting and far reaching effects of this loss until *Motherless Daughters* which became an instant classic more than twenty years later it is still the go to book that women of all ages look to for comfort help and understanding when their mother dies building on interviews with hundreds of mother loss survivors edelman's personal story of losing her mother and recent research in grief and psychology *Motherless Daughters* reveals the shared experiences and core identity issues of motherless women why the absence of a nurturing hand shapes a woman's identity throughout her lifespan how present day relationships are defined by past losses how a woman can resolve past conflicts and move toward acceptance and healing why grief really is not a linear passage but an ongoing cyclical journey how the legacy of mother loss shifts with the passage of time

The Theory of Institutional Design

1996-01-26

this book explores the role and status of local and regional authorities also referred to as subnational authorities or snas in european union law and reveals the existence of two parallel yet opposed constitutional imaginations of the supranational legal order through a survey of various areas of eu law including primary and secondary legislation case law as well as various soft law instruments finck introduces two narratives these are the outsider narrative and the insider narrative that frame these constitutional imaginations according to the outsider narrative the structure of the legal order is bi centric composed of the member states and the eu only this narrative envisages snas as outsiders of eu law whose interactions with union law are merely of an indirect nature however in addition to this well known account of eu law a parallel yet distinct narrative can be identified according to which snas are insiders that entertain direct relations with the european union and contribute to the substantive development of eu law it is illustrated that the coexistence of both narratives has wider implications as it points towards a shift in the structure of the european legal order itself which is transitioning from bi centricity to polycentricity
