Library of Congress Subject Headings 1991 this book provides a proficient guide on the relationship between artificial intelligence ai and healthcare and how ai is changing all aspects of the healthcare industry it also covers how deep learning will help in diagnosis and the prediction of disease spread the editors present a comprehensive review of research applying deep learning in health informatics in the fields of medical imaging electronic health records genomics and sensing and highlights various challenges in applying deep learning in health care this book also includes applications and case studies across all areas of ai in healthcare data the editors also aim to provide new theories techniques developments and applications of deep learning and to solve emerging problems in healthcare and other domains this book is intended for computer scientists biomedical engineers and healthcare professionals researching and developing deep learning techniques in short the volume discusses the relationship between ai and healthcare and how ai is changing the health care industry considers uses of deep learning in diagnosis and prediction of disease spread presents a comprehensive review of research applying deep learning in health informatics across multiple fields highlights challenges in applying deep learning in the field promotes research in ddeep llearning application in understanding the biomedical process dr m a jabbar is a professor and head of the department ai ml vardhaman college of engineering hyderabad telangana india prof dr ajith abraham is the director of machine intelligence research labs mir labs auburn washington usa dr onur dogan is an assistant professor at İzmir bakırçay university turkey prof dr ana madureira is the director of the interdisciplinary studies research center at instituto superior de engenharia do porto isep portugal dr sanju tiwari is a senior researcher at universidad autonoma de tamaulipas mexico

Library of Congress Subject Headings 1991 the volume focuses on the years following the first world war 1918 1923 when political military cultural social and economic developments consolidated to a high degree in eastern europe this period was shaped on the one hand by the efforts to establish an international structure for peace and to set previously oppressed nations on the road to emancipation on the other hand it was also defined by political revisionism and territorial claims as well as a level of political violence that was effectively a continuation of the war in many places albeit under modified conditions political decision makers sought to protect the emerging nation states from radical political utopias but simultaneously had to rise to the challenges of a social and economic crisis manage the reconstruction of the many extensively devastated landscapes and provide for the social care and support of victims of war

Library of Congress Subject Headings 2007 drawing on hundreds of richly textured interviews conducted from one end of the country to the other veteran journalist sanford j ungar documents the real life struggles and triumphs of america s newest immigrants he finds that the self chosen who arrive every day most of them legally still enrich our national character and experience and make invaluable political economic social cultural and even gastronomic contributions first class journalism a book scholars will use decades from now to find out what it felt like to be an immigrant in the 90s i do not know of a better description and analysis of contemporary immigration roger daniels author of coming to america a history of immigration and ethnicity in american life an excellent overview of contemporary immigration issues set within the context of developments in the past fifty years ungar makes a strong case for the contributions of recent immigrants and for maintaining a relatively open door in the face of sometimes shrill opposition thomas dublin editor of immigrant voices new lives in america exactly the right book at the right time ungar looks at the national controversy over immigration policy with a clear eye producing a history and a convincing argument why this is no time to reverse a liberal welcome to newcomers that has always in good times and bad made this a better and more prosperous democracy ben h bagdikian author of double vision

Medical Record 1896 in colonial fantasies imperial realities lenny ureña valerio offers a transnational approach to polish german relations and nineteenth century colonial subjectivities she investigates key cultural dynamics in the history of medicine colonialism and migration that bring germany and prussian poland closer to the colonial and postcolonial worlds in africa and latin america she also analyzes how poles in the german empire positioned themselves in relation to germans and native populations in overseas colonies she thus recasts polish perspectives and experiences allowing new insights into identity formation and nationalist movements within the german empire crucially ureña valerio also studies the medical projects and scientific ideas that traveled from colonies to the german metropole and vice versa which were influential not only in the racialization of slavic populations but also in bringing scientific conceptions of race to the everydayness of the german empire as a whole colonial fantasies imperial realities illuminates nested imperial and colonial relations using sources that range from medical texts and state documents to travel literature and fiction by studying these scientific and political debates ureña valerio uncovers novel ways to connect medicine migration and colonialism and provides an invigorating model for the analysis of polish history from a global perspective

Medical Record 1893 in this state of the field anthology leading scholars in the fields of european imperial history and intellectual history explore the nature of european imperialism during the long nineteenth century scrutinizing the exact relationship between the various forms of liberalism in europe and the various imperial projects of europe

Library of Congress Subject Headings: F-O 1989 between 1928 and 1971 nearly one million immigrants landed in canada at pier 21 in halifax nova scotia during those years it was one of the main ocean immigration facilities in canada including when it welcomed home nearly 400 000 canadians after service overseas during the second world war in the immediate postwar period pier 21 became the busiest ocean port of entry in the country today people across canada still enjoy connections to pier 21 through family history and stories of arrival at the site since 1998 researchers at the pier 21 interpretive centre and now the canadian museum of immigration have been conducting interviews reviewing archival materials gathering written stories and acquiring photographs documents and other objects reflecting the history of pier 21 pier 21 a history builds upon the resulting collection it presents a history of this important canadian ocean immigration facility during its years of operation and later emergence as a site of public commemoration published in english also available in french quai 21 une histoire

is published daily when congress is in session the congressional record began publication in 1873 debates for sessions prior to 1873 are recorded in the debates and proceedings in the congress of the united states 1789 1824 the register of debates in congress 1824 1837 and the congressional globe 1833 1873

The Southern Medical Record 1884 however horrible the past may have been forgetting it would make the future even worse international historical enlightenment human rights and humanitarian society memorial moscow set around the time of the 1863 uprising and world war ii in search of staszewski is a powerful and moving real life account of a polish family s six year ordeal and fight for survival under soviet oppression focusing on a family that were victims of tsarist russia s oppression the book also investigates stalin s brutal regime and the dreaded gulag system where in addition to millions of russian citizens hundreds of thousands of innocent poles died as a result some survived and escaped the soviet paradise going on to fight courageously alongside allied forces during world war ii investigated and told by the son of a survivor who only learned the truth after the sudden death of his father two strands of detailed investigation are woven into an emotional journey of discovery uncovering the shocking details his father was so reluctant to speak about in search of staszewski is not only the story of a fight for survival by four generations of one family but also of a people s struggle to preserve their cultural and national identity in the face of powerful neighbours inspired by authors such as norman davies orlando figes and pulitzer prize winner anne applebaum in search of staszewski uncovers the truth surrounding a little known and largely untold episode of world war ii history that will surprise and shock fans of historical and biographical non fiction works

Central and Eastern Europe after the First World War 2021-11-22 freedom of conscience a comparative law perspective addresses the timeliest of topics across the european continent as well as in the anglophone world including the united states freedom of conscience is at the forefront of issues addressed by judges and legislators it is also a perennial matter of great importance public authorities throughout the ages have struggled to understand and properly to meld the necessities of political order and the freedom of competent adults to author their own actions and to constitute themselves by making and acting upon their conscientious decisions about what moral truth requires of them the urgency and gravity of the issues presented by freedom of conscience is also matched by their intrinsic complexity for all these reasons only a multi disciplinary full orb ed approach to these questions will do them justice this volume rises to the occasion the comparative perspective supplied by the editor s recruitment of an international group of scholars and also by his assignment to some of them the task of investigating additional countries is utterly invaluable the papers deftly blend what i might call lawyer s law that is a careful presentation of the facts and holdings of courts or the precise details of a particular statutory scheme with genuine philosophical depth i should like to emphasize this virtue of the collection by observing that collections of this general sort tend to be either all sail or all anchor either drowned in the minutiae of law without a care for the big picture or all philosophy untethered to the reality of the positive law blicharz s book has broken this mold it promises to appeal to working lawyers students judges and scholars gerard v bradley professor of law university of notre dame usa this edited volume will be a useful resource to scholars in this area it has a rich national variety covering poland extensively italy the united states the united kingdom and three scandinavian countries sweden norway and finland anyone interested in the state of the freedom of conscience in notable western democracies will benefit from this work those particularly interested in poland a country not always focused on in the literature will find this book of great value and that is the hallmark of scholarship a conversation in the search for truth james c phillips phd stanford university s constitutional law center usa

The London Medical Record 1887 the international conference intelligent information processing and mining iis iipwm 05 organized in gda sk sobieszewo on 13 16th june 2005 was a continuation of a long tradition of conferences on applications of artificial intelligence ai in information systems is organized by the institute of computer science of polish academy of sciences in cooperation with other scientific and business institutions the institute itself is deeply engaged in research both in ai and is and many scientists view it as a leading institution both in fundamental and applied research in these areas in poland the originators of this conference series prof m d browski and dr m michalewicz had in 1992 a long term goal of bringing together scientists and industry of different branches from poland and abroad to achieve a creative synthesis one can say that their dream has come to reality scientists from various continents made their submissions to this conference a brief look at the affiliations makes international cooperation visible the research papers have either a motivation in create applications or are responses of some practical requests this volume presents the best papers carefully chosen from a large set of submissions about 45 at this point we would like to express our thanks to the members of programme committee for their excellent job also we are thankful to the organizers of the special sessions accompanying this conference jan komorowski adam przepiórkowski zbigniew w

Fresh Blood 1998 the yearbook of the european convention for the prevention of torture offers an essential annual overview of developments in relation to the ecpt part one contains information on ratifications and other such issues in the authentic english and french texts part two has details in english and french of the membership and activities of the convention part three reprints the twenty fourth annual general report of the ecpt covering the period 1 august 2013 31 december 2014 in the official english and french texts part four contains the ecpt s reports to states and the state responses thereto that were made public during the year in question the ecpt s reports are published in the official english and or french texts and state responses in the english and or french versions submitted by the states concerned bilingual english and french 3 volume set

Congressional Record 1959 includes subject section name section and 1968 1970 technical reports

Colonial Fantasies, Imperial Realities 2019-08-28 this book examines the relevance of a theoretical model of health care law making in several central and eastern european countries confronted with the legacy of the ancient regime the countries selected shifted away from a socialist model towards a more market oriented health care system from a legal perspective this change of system imposed on government the need for drastic reforms starting with the introduction of a compulsory health insurance scheme based on the notion of solidarity future accession to the eu requiring the incorporation of the *acquis communautaire* has increased the complexity of legal reforms since strengthening the reform process the author developed a method of law making based on legal theoretical understanding case study research in three selected countries justifies the conclusion that the analytical model rationalises the law making activity including the eu law approximation process what is more it became apparent that the importance of this theoretical model is not restricted only to the selected countries but may also be a valuable instrument for other countries in transition in the region health care law making in central and eastern europe review of a legal theoretical model provides a unique resource for scholars and policy makers interested in legal reforms in central and eastern european health care systems
