companies 7 years working as product manager for apics certification courseware leading development of cscp learning system and cltd learning system what we ll cover today what is the apics cscp certification program why should i earn the cscp how do i earn the cscp a few more questions you may have special webinar promotion q a session the 2023 apics cscp learning system is a comprehensive professional development and exam preparation program it consists of eight reading modules and web based study tools that reflect the entire apics cscp exam content manual ecm and provide a broad view of global end to end supply chain management we recommend using the cscp 5 0 learning system to study for the cscp 5 0 exam for those candidates who already have the cscp 4 0 learning system a bridging document detailing the high level differences between the content for each version of the exam will be available in q4 2021 q will both versions of the exams be available concurrently the 2022 apics cscp learning system is a comprehensive professional development and exam preparation program it consists of eight reading modules and web based study tools that reflect the entire apics cscp exam content manual ecm and provide a broad view of global end to end supply chain management to approach the cscp exam you have to meet one of the three requirements possess at least three years of supply chain related business experience bachelor s degree or the international i just passed the cscp and want to provide my study progress for those currently working towards the cscp exam feel free to let me know if you have questions i spent about 10 months slowly studying during my downtime at work below is a summary of my study progress quiz practice scores etc i got the learning system and barely passed the cltd but i had the same thoughts about the writing of the material juxtaposed to the test i felt often like they were written for different certifications i suppose that made me dig deeper into the theory and in the end helped me to pass the cscp learning system includes both printed books and access to an interactive online platform instructor led ideal for people who prefer a structured study environment instructor led courses are offered by approved ascm partners worldwide please contact ascm montreal chapter for more information the 2024 apics cscp learning system consists of eight modules and web based study tools that reflect the entire apics cscp exam content manual ecm and provide a broad view of global end to end supply chain management while learning based autonomous systems have proven to be effective in perception and control safety assurance is still a great challenge especially when operating in unpredictable environments and while some safety guarantees exist they tend to be overly conservative restricting capacity and performance the cscp learning system is a comprehensive program that combines print and online reading materials online practice tests and interactive study tools to ensure you re prepared for the exam choose from three flexible study options that fit your schedule and learning style self study instructor led instructor supported or corporate
