the 1998 high school transcript study provides the u s department of education educational policymakers with information regarding current course offerings and students course taking patterns in u s secondary schools similar studies were conducted in 1982 1987 1990 and 1994 this guide documents the procedures used to collect and summarize the data it also provides information needed to use all publicly released data files produced by the study in previous years the information in this technical report was reported in two documents the data file user s manual and the technical manual the report contains these sections 1 introduction to the high school transcript study 2 background sample design 3 selection of primary sampling units schools and students for the 1998 high school transcript study 4 data collection procedures 5 data processing procedures 6 weighting and estimation of sampling variance and 7 1998 high school transcript study data files fifteen appendixes provide supplemental information including the questionnaires and the code books for the study s individual files contains 32 tables 3 figures 15 exhibits and 16 references sld introduction to pesticides insects plant disease agents vertebrate pests weeds integrated pest management pesticide laws pesticide safety environmental considerations pesticide formulations and adjuvants pesticide application

equipment pesticide transportation storage decontamination and disposal this report describes the maccs computer code the purpose of this code is to simulate the impact of severe accidents at nuclear power plants on the surrounding environment maccs has been developed for the us nuclear regulatory commission to replace the previously used crac2 code and it incorporates many improvements in modeling flexibility in comparison to crac2 the principal phenomena considered in maccs are atmospheric transport mitigative actions based on dose projections dose accumulation by a number of pathways including food and water ingestion early and latent health effects and economic costs the maccs code can be used for a variety of applications these include 1 probabilistic risk assessment pra of nuclear power plants and other nuclear facilities 2 sensitivity studies to gain a better understanding of the parameters important to pra and 3 cost benefit analysis this report is composed of three volumes volume i the user s guide describes the input data requirements of the maccs code and provides directions for its use as illustrated by three sample problems volume ii the model description describes the underlying models that are implemented in the code and volume iii the programmer s reference manual describes the code s structure and database management

reviews in plasmonics is a comprehensive collection of current emerging hot topics in the field of plasmonics and closely related disciplines it summarizes the years progress in plasmonics and its applications with authoritative analytical reviews specialized enough to be attractive to professional researchers yet also appealing to the wider audience of scientists in related disciplines of plasmonics

2005-2010 The 1998 high school transcript study provides the u s

department of education and other educational policymakers with information regarding current course offerings and

students course taking patterns in u s secondary schools similar studies were conducted in 1982 1987 1990 and 1994

this guide documents the procedures used to collect and summarize the data it also provides information needed to use

all publicly released data files produced by the study in previous years the information in this technical report was

reported in two documents the data file user s manual and the technical manual the report contains these sections 1

introduction to the high school transcript study 2 background sample design 3 selection of primary sampling units

schools and students for the 1998 high school transcript study 4 data collection procedures 5 data processing procedures

6 weighting and estimation of sampling variance and 7 1998 high school transcript study data files fifteen appendixes

provide supplemental information including the questionnaires and the code books for the study s individual files

contains 32 tables 3 figures 15 exhibits and 16 references sld
