American Government 2017-01-01 for description see catalog entry for wilson diiulio american government institutions and policies 9 e

American Government 2021 from healthcare to workplace conduct the federal government is taking on ever more responsibility for managing our lives at the same time americans have never been more disaffected with washington seeing it as an intrusive incompetent wasteful giant the most alarming consequence of ineffective policies in addition to unrealized social goals is the growing threat to the government s democratic legitimacy understanding why government fails so often and how it might become more effective is an urgent responsibility of citizenship in this book lawyer and political scientist peter schuck provides a wide range of examples and an enormous body of evidence to explain why so many domestic policies go awry and how to right the foundering ship of state schuck argues that washington s failures are due not to episodic problems or partisan bickering but rather to deep structural flaws that undermine every administration democratic and republican these recurrent weaknesses include unrealistic goals perverse incentives poor and distorted information systemic irrationality rigidity and lack of credibility a mediocre bureaucracy powerful and inescapable markets and the inherent limits of law to counteract each of these problems schuck proposes numerous achievable reforms from avoiding moral hazard in student loan mortgage and other subsidy programs to empowering consumers of public services simplifying programs and testing them for cost effectiveness and increasing the use of big data the book also examines successful policies including the g i bill the voting rights act the earned income tax credit and airline deregulation to highlight the factors that made them work an urgent call for reform why government fails so often is essential reading for anyone curious about why government is in such disrepute and how it can do better

American Government Student Handbook 2000-12 now in its third edition encyclopedia of public administration and public policy remains the definitive source for article length presentations spanning the fields of public administration and public policy it includes entries for budgeting bureaucracy conflict resolution countries and regions court administration gender issues health care human resource management law local government methods organization performance policy areas policy making process procurement state government theories this revamped five volume edition is a reconceptualization of the first edition by jack rabin it incorporates over 225 new entries and over 100 revisions including a range of contributions and updates from the renowned academic and practitioner leaders of today as well as the next generation of top scholars the entries address topics in clear and coherent language and include references to additional sources for further study

American Government 2004 many americans are unsatisfied with politics simultaneously we are hesitant to question the basic soundness of our

constitutional system in this refreshingly provocative book david orentlicher explains why it is due time for us to reconsider dominant ideas about the presidency now arguably our most powerful political institution challenging the conventional wisdom that the best executive is necessarily a unitary executive orentlicher makes a wonderful case for why two presidents are better than one sure to be of interest to political scientists legal scholars as well as informed citizens justifiably worried about the fate of american democracy this fascinating book dares to challenge everything you thought you knew about one of our favorite political institutions william e scheuerman indiana university can orentlicher be serious in calling for a plural executive the answer is yes and he presents thoughtful and challenging arguments responding to likely criticisms any readers who are other than completely complacent about the current state of american politics will have to admire orentlicher s distinctive audacity and to respond themselves to his well argued points sanford levinson author of framed america s 51 constitutions and the crisis of governance when talking heads and political pundits make their what s wrong with america lists two concerns invariably rise to the top the growing presidential abuse of power and the toxic political atmosphere in washington in two presidents are better than one david orentlicher shows how the imperial presidency and partisan conflict are largely the result of a deeper problem the constitution s placement of a single president atop the executive branch accordingly writes orentlicher we can fix our broken political system by replacing the one person one party presidency with a two person two party executive branch orentlicher contends that our founding fathers did not anticipate the extent to which their checks and balances would fail to contain executive power and partisan discord they also did not foresee how the imperial presidency would aggravate partisan conflict as the stakes in presidential elections have grown ever higher since the new deal battles to capture the white house have greatly exacerbated partisan differences had the framers been able to predict the future orentlicher argues they would have been far less enamored with the idea of a single leader at the head of the executive branch and far more receptive to the alternative proposals for a plural executive that they rejected like their counterparts in europe they might well have created an executive branch in which power is shared among multiple persons from multiple political parties analyzing the histories of other countries with a plural executive branch and past examples of bipartisan cooperation within congress orentlicher shows us why and how to implement a two person two party presidency ultimately two presidents are better than one demonstrates why we need constitutional reform to rebalance power between the executive and legislative branches and contain partisan conflict in washington

American Government 6/E Gst Lect 1995-01-01 an unrivalled explanation of how criminal policy came to be formed in three states due to the enormous influence of three men james q wilson usa dato steenhuis the netherlands and david faulkner uk by one of the uk s leading analysts

American Government 1998 renewing and expanding national infrastructure is critical to the wellbeing and productivity of canadians and is one of

the foremost challenges confronting our federal provincial and municipal governments not only are the required investments dauntingly large for all three levels of government but so too is the required level of intergovernmental cooperation if our goals are to be realized the 2015 state of the federation volume advances our understanding of these infrastructure challenges and identifies how best to resolve them the contributors to the volume provide historical or international comparative perspectives and utilize legal economic or administrative approaches to examine the nature and magnitude of the so called infrastructure deficit and the question of how best to finance the necessary investments the possible roles played by deficits and debt are considered together with options such as public private partnerships and asset recycling and a possible aboriginal resource tax to finance the on reserve infrastructure needs of first nations considerable attention is also paid to pricing the use of infrastructure both to achieve efficiency in use and to avoid excess demand and an exaggerated perception of the required level of investment other contributors examine the infrastructure investment decision processes at the federal and provincial levels and consider the optimal allocation of responsibility for infrastructure investments among the different levels of government and the related issue of the role of intergovernmental transfers to underwrite this allocation

Encyclopedia of Public Administration and Public Policy - 5 Volume Set 2020-08-14 ideologues and presidents argues that ideologues have been gaining influence in the modern presidency there were plenty of ideologues in the new deal but they worked at cross purposes and could not count on the backing of the cagey pragmatist in the oval office three decades later the johnson white house systematically sought the help of hundreds of liberals in drawing up blueprints for policy changes but when it came time to implement their plans lyndon johnson s white house proved to have scant interest in ideological purity by the time of the reagan revolution the organizations that supported ideological assaults on government had never been stronger the result was a level of ideological influence unmatched until the george w bush presidency in bush s administration not only did anti statist and social conservatives take up positions of influence throughout the government but the president famously pursued an elective war that had been promoted for a decade by a networked band of ideologues in the barack obama presidency although progressive liberals have found their way into niches within the executive branch the real ideological action continues to be stage right how did american presidential politics come to be so entangled with ideology and ideologues ideologues and presidents helps us move toward an answer to this vital question

Two Presidents Are Better Than One 2013-03-11 from the nuremberg trials to the civil service reform act of 1978 to recent budget reconciliation bills the encyclopedia of public administration and public policy provides detailed coverage of watershed policies and decisions from such fields as privatization biomedical ethics education and diversity this second edition features a wide range of new topics including military administration government procurement social theory and justice administration in developed democracies it also addresses current issues such as the creation of the department of homeland security and covers public administration in the middle east africa southeast asia the pacific and latin america

Studium und Arbeitstechniken der Politikwissenschaft 2010-11-25 for many people the world of politics is defined by ideologies the average voter rarely takes time to research a policy issue thoroughly relying instead on a set of beliefs set forth by his or her chosen political organization to make important decisions these publicly promoted ideologies play an important role in international as well as domestic political development yet many adherents to a particular belief may have a poor understanding of competing ideologies from right wing to the far left this text dissects eight prominent political ideologies traditional conservatism classic liberalism libertarianism conservative extremism contemporary liberalism communism dependency theory and islamism in plain terms it describes the basic doctrine and inherent contradictions of each creed along with its particular relevance to today s political landscape an in depth discussion of the political socialization processes that form and perpetuate ideologies is also

included instructors considering this book for use in a course may request an examination copy here

Advancing Your Career 2019-10-01 since the ratification of the constitution which established a union of states under a federal system of governance two questions have generated considerable debate what is the nature of the union what powers privileges duties and responsibilities does the constitution grant to the national government and reserve for the states and the people during the more than 200 year history of the constitution these issues have been debated time and again and have shaped and been shaped by the nation s political social and economic history this book examines the history and current issues of federalism

Making Government Work 1994-11-01 the local public sector is deeply steeped in history studying the historic patterns of urban settlements helps us to understand the development of local priorities zoning to separate residential areas by class and race establishing police and fire departments to protect lives and property building roads and canals to make transportation more efficient and setting up school systems to educate students for work and adulthood in this new book the reader is guided through premodern conditions in order to identify paradigmatic changes that differentiate the premodern age from the modern age the well known contours of that transformation are then used to highlight trends that signal movements toward postmodernity a great variety of books cover politics policies and governance at the local level this book invites a more comprehensive look in that it structures the analysis around six basic themes economics politics and government organization of work education human nature plus related practices and criminal justice the book invites a historical perspective by using the six themes to clarify paradigmatic shifts from premodernity to modernity and now postmodernity the paradigmatic changes are examined to ask important questions what can local governments learn from premodernity and modernity to promote desirable developments and avert unfavorable trends in postmodernity what are progressive and regressive strategies what social cultural and economic principles and practices are worth promoting and which ones to discourage the broad nature of the book makes it relevant to students scholars and experts of urban politics and policies as well as city planning economic planning ethics and related fields

Transforming Criminal Policy 1996 democracy is a very important system of government found all over the world a cardinal principle of democracy is periodic elections elections have various forms of propaganda at different levels whether for unity division continuity or another purpose it is essential to research further into the developments in propaganda and political unrest so that global democracies may ensure credible elections and smooth governmental processes insights and explorations in democracy political unrest and propaganda in elections investigates how democratic governments can ensure credible elections in a peaceful atmosphere and an atmosphere of political unrest amidst various propagandas the book assesses whether democratic peace is expected in all democracies despite the free occurrence of political unrest across many democratic societies in europe america asia and africa covering topics such as democratic accountability political leadership and youth marginalization this premier reference source is an essential resource for government officials public policy brokers politicians students and educators of higher education researchers and academicians

Canada: The State of the Federation 2015 2018-05-31 this exciting adventure romance is full of the exotically colorful life of rural india in the nineteenth century with a boy hero who is handsome intelligent self reliant and streetwise

Ideologues and Presidents 2014-07-22 natural resource policies provide the foundation for sustainable resource use management and protection natural resource policy blends policy processes history institutions and current events to analyze sustainable development of natural resources the book s detailed coverage explores the market and political allocation and management of natural resources for human benefits as well as their

contributions for environmental services wise natural resource policies that promote sustainable development not senseless exploitation promise to improve our quality of life and the environment public or private policies may be used to manage natural resources when private markets are inadequate due to public goods or market failure many policy options including regulations education incentives government ownership and hybrid public private policy instruments may be crafted by policy makers whether a policy is intended to promote intensive management of natural resources to enhance sustained yield or to restore degraded conditions to a more socially desirable state this comprehensive guide outlines the ways in which natural resource managers can use their technical skills within existing administrative and legal frameworks to implement or influence policy

Encyclopedia of Public Administration and Public Policy: A-J 2003 many important questions regarding the creation and adoption of the united states constitution remain unresolved did slaveholdings or financial holdings significantly influence our founding fathers stance on particular clauses or rules contained in the constitution was there a division of support for the constitution related to religious beliefs or ethnicity were founders from less commercial areas more likely to oppose the constitution to form a more perfect union successfully answers these questions and offers an economic explanation for the behavior of our founding fathers during the nation s constitutional founding in 1913 american historian charles a beard controversially argued in his book an economic interpretation of the constitution of the united states that the framers and ratifiers of the constitution were less interested in furthering democratic principles than in advancing specific economic and financial interests beard s thesis eventually emerged as the standard historical interpretation and remained so until the 1950s since then many constitutional and historical scholars have questioned an economic interpretation of the constitution as being too narrow or too calculating believing the great principles and political philosophies that motivated the founding fathers to be worthier subjects of study in this meticulously researched reexamination of the drafting and ratification of our nation s constitution robert mcguire argues that alexander hamilton james madison george mason and the other founding fathers did act as much for economic motives as for abstract ideals to form a more perfect union offers compelling evidence showing that the economic financial and other interests of the founders can account for the specific design and adoption of our constitution this is the first book to provide modern evidence that substantiates many of the overall conclusions found in charles beard s an economic interpretation while challenging and overturning other of beard s specific findings to form a more perfect union presents an entirely new approach to the study of the shaping of the u s constitution through the application of economic thinking and rigorous statistical techniques as well as the processing of vast amounts of data on the economic interests and personal characteristics of the founding fathers mcguire convincingly demonstrates that an economic interpretation of the constitution is valid radically challenging the prevailing views of most historians political scientists and legal scholars to form a more perfect union provides a wealth of new findings about the founding fathers constitutional choices and sheds new light on the motivations behind the design and adoption of the united states constitution

American Political Ideologies 2006-04-03 despite widespread urban revitalization and renewal americans still prefer the suburbs to the cities while many of the underlying causes of the urban predicament are familiar there is also the less recognized possibility that regulatory policies of the federal government disadvantage the cities and ultimately burden their ability to attract residents and businesses this book encourages renewed reflection on the suitable balance between national and local domains

Federalism 2006 this tightly argued and methodologically sound volume addresses widespread social assumptions associating crime and african american men an exploration into the criminal justice system in america today and its impact on young african american males this book challenges

the linking of crime and race and the conservative anti welfare hard on crime agenda jerry miller has spent a lifetime studying and challenging our criminal justice system he has worked to make it more progressive and more just he has watched as it turned into a system of segregation and control for many americans of color that is the story told here in devastating detail

Changing Urban Trends 2019-10-02 conservative criminology serves as an important counterpoint to virtually every other academic text on crime hundreds of books have been written about crime and criminal justice policy from a variety of perspectives including marxist liberal progressive feminist radical and post modernist to date however no book has been written outlining a conservative perspective on crime and criminal justice policy not a polemic against liberalism conservative criminology nonetheless focuses on how liberal ideology affects the study of crime and criminals and the policies that criminologist advocate wright and delisi both senior scholars give a voice to a major political philosophy a philosophy often demonized by academics and to conservatives in the academic world in the end conservative criminology calls for an investment in intellectual diversity a respect for varying political philosophies and a renewed commitment to honesty in scholarship the authors encourage debate in the profession about the proper role of ideology in the academy and in public policies on crime and justice conservative criminology is for the criminal justice professional and student it serves as a stimulating supplement to courses in criminology and criminal justice as well as a primary text for special issues or capstone courses this book supports the reader in recognizing ideological biases whatever they might be and in considering their own convictions

Insights and Explorations in Democracy, Political Unrest, and Propaganda in Elections 2023-07-10 since the late 1960s trust in government has fallen precipitously the nine essays composing this volume detail the present character of distrust analyze its causes assess the dangers it poses and suggest remedies the focus is on trust in the congress the contributors also examine patterns of trust in societal institutions and the presidency especially in light of the clinton impeachment controversy among the themes the book highlights are the impacts of present patterns of politics the consequences of public misunderstanding of democratic politics the significance of poll data and the need for reform in campaign finance media practices and civic education

Modern America and the Legacy of the Founding 2007 responding to volatile criticisms frequently leveled at leo strauss and those he influenced the prominent contributors to this volume demonstrate the profound influence that strauss and his students have exerted on american liberal democracy and contemporary political thought by stressing the enduring vitality of classic books and by articulating the theoretical and practical flaws of relativism and historicism the contributors argue that strauss and the straussians have identified fundamental crises of modernity and liberal democracy this book emphasizes the broad range of strauss s influence from literary criticism to constitutional thought and it denies the existence of a monolithic straussian political orthodoxy both critics and supporters of strauss thought are included all political theorists interested in strauss s extraordinary impact on political thought will want to read this book

Natural Resource Policy 2016-07-12 publisher description

To Form a More Perfect Union 2003 this book examines the impact of several decades of public sector reform in four westminster systems australia canada new zealand and the united kingdom political and managerial change has re defined roles and relationships and how their public sectors function often this occurs in comparable ways because of a common administrative tradition but choices made in different country contexts also produce divergent outcomes in analysing the results and implications of reform fundamental issues of and tensions in public administration and

management are addressed

Tense Commandments 2002 according to relational sociology power imbalances are at the root of human conflicts and consequently shape the physical and symbolic struggles between interdependent groups or individuals this volume highlights the role of power relations in the african american experience by applying key concepts of pierre bourdieu and norbert elias to black literature and culture the authors offer new readings of power asymmetries as represented in works of canonical and contemporary black writers richard wright ralph ellison gwendolyn brooks toni morrison percival everett colson whitehead rap music e g jay z images of black homelessness and figurations of political activism civil rights activist bayard rustin
