Proceedings of the ... Cross-Campus Conference on Education 1990 summative assessment has been a contentious issue in educational circles for several decades particularly high stakes assessment events which arise at various junctures of the school cycle especially those at the end of it the french baccalaureat and english a levels and their numerous clones throughout the francophone and anglophone worlds are household names and represent milestone events in people s lives as their outcomes are principal determinants of young people s future prospects these examinations are external they are devised conducted and processed by agencies outside the schools usually ministerial examination units as such they act as blind arbiters of student achievement providing the proverbial level playing field which ensures the comparability of outcomes in the pyramidal school structures of yesteryear examinations acted as filters regulating the progression of pupils to subsequent tiers of formal education exit points occurred from primary school level up from where unsuccessful candidates could enter the labour force and or embark on occupationally specific further education and training with the modernisation of the labour market and an ever higher social demand for access to higher levels of formal education the filtering function of examinations at lower levels of schooling has been gradually eroded while burgeoning numbers of students at the upper secondary level have brought about reforms that include curricular diversification and sometimes radical overhauls of terminating assessment systems including the modification and in some instances abandonment of external examinations this edited volume brings together the experiences of twenty examination systems from around the world to show how these dynamic entities have adapted over time to the changing context of schooling following an introduction by stephen p heyneman of world bank repute there are sixteen chapters presenting country case studies which have been written up under common subheadings thereby highlighting the comparative nature of the work and facilitating cross referencing the subsequent four chapters elaborate on the theme of external examinations beyond national borders including a contribution by the international baccalaureate organisation a defining feature of the work is the attention it pays to what it calls the nuts and bolts of external examinations from question setting to grading procedures these are it is argued instrumental in nurturing and maintaining public confidence in external examinations the book will be of immense value to people involved in educational policy studies especially strategic educational planning as well as those directly concerned with formal assessment the work has been written to appeal to a wide audience of informed persons it is accessible to teachers and interested laypeople as well as to academics

Information Technology CSEC® 2019-08-08 the purpose of this book is to examine the performance of Guyana's economy during the era of dirigisme and the period of economic liberalisation with emphasis on a market economy using all available micro and macro data in a much broader and meaningful sense this book deals with the socio economic progress of Guyana from the 1960s with heavy emphasis on the market reforms because this is the dominant and interesting story for policy lessons in the third world this book also focuses on what has happened to poverty inequality and other social indicators during the reform period until now there has not been any systematic examination of the effects of the economic reforms in Guyana on unemployment wages and industrial activity poverty and inequality farmers response to price liberalisation education and health indicators ethnicity and growth and governance crime and corruption these issues and more are the subject matter of this book the book refers to those aspects of Guyana's history and recent political events that bear directly on economic policy and the performance of the economic system

Guyana 2003 the conventional literature on public administration is dominated by the patterns and concerns of large countries it does not address the needs of small countries which have very different organisational and managerial frameworks for example what degree of specialisation is possible in a ministry which has only a small group of professional staff and what are the implications for management of highly personalised societies in which everybody seems to know everybody else this book presents 14 studies written by people who are actually grappling with the issues about which they write the book thus has both authenticity and practical value the book is an amplification of a companion work and will be of value to academics as well as to administrators and trainers the companion book is also available from the commonwealth secretariat it is entitled making small practical the organisation and management of ministries of education in small states

The Practice of Assessment in Music Education 2010 the deployment of reconfigurable optical add drop multiplexers roadms is gradually transforming a transport layer made of point to point optical links into a highly interconnected reconfigurable photonic mesh to date the widespread use of roadms has been driven by the cost savings and operational simplicity they provide to quasi static networks i e networks in which new connections are frequently set up but rarely taken down however new applications exploiting the roadms ability to dynamically reconfigure a photonic mesh network are now being investigated in this chapter we review the attributes and limitations of today's roadms and other node hardware and survey proposals for future improvements including colorless non directional and contentionless add drop ports applications of reconfigurable networks are also discussed with emphasis on the backbone network of a major communications service provider carrier finally we assess which of these new developments are most likely to bring added value in the near term and long term future
