powerful tool for deepening one's faith and drawing closer to God. Habermas, with his extensive experience and empathetic approach, offers a lifeline to believers struggling with uncertainties in their spiritual journey. At the heart of the book is the dissection of three types of doubt: factual, emotional, and volitional. Habermas, through his own experiences and those of the individuals he has counseled, demonstrates that doubts are not a sign of weak faith but rather an opportunity for profound personal growth. He skillfully navigates the reader through the complexities of each doubt type, providing practical strategies for overcoming them. The book is enriched with examples from both the Old and New Testaments, showcasing that doubt has been a constant companion of even the most steadfast believers throughout history. In debunking common myths about doubting, Habermas sets the stage for building a resilient foundation for faith. Practical chapters guide the reader in developing a tailored strategy to address their doubts, including disciplines like prayer, scripture memorization, journaling, and practicing Christian behavior. Habermas emphasizes that working through doubts is not just an intellectual exercise but involves the whole person: emotions, will, and intellect. The Thomas Factor does not shy away from the tougher aspects of theological inquiry; it addresses why theological differences exist and how to live with unanswered questions, thus equipping the reader to navigate the diverse landscape of Christian thought. Habermas concludes with a thoughtful discussion on the negative and positive consequences of doubt. He illustrates how doubt, when approached correctly, can lead to a stronger, more authentic faith, likening the process to refining gold. This book is an invaluable resource for anyone grappling with doubts about their faith. It offers not only solace and understanding but also practical tools for turning doubt into a stepping

reflecting on the ups and downs of his own journey bob exposes the fear that keeps us isolated causing us to lock up our gifts and dreams instead of having a positive impact on the world with our talents we are left frustrated and unfulfilled but if we have the courage to pursue our dreams investing our lives and talents into something meaningful what results is true joy and fulfillment throughout the courage factor readers will meet inspiring individuals with stories that illustrate how even our dark moments and detours can prepare us for significance if we embrace courage and step forward in faith discover the potential we each have to unlock and accelerate the dreams and talents of those around us in key moments of decision pivotal moments where fear and courage do battle learn to recognize these moments for what they are defeat fear and turn risk into reward courageous and fully invested people can change the world and you can be one of them apocalyptic transformation explores how one the oldest sense making paradigms the apocalyptic myth is altered when postmodern authors and filmmakers adopt it it examines how postmodern writers adapt a fundamentally religious story for a secular audience and it proposes that even as these writers use the myth in traditional ways they simultaneously undermine and criticize the grand narrative of apocalypse itself our national leaders want to normalize relations with the sworn enemies of israel for pastor and author dwight jones this troubling development is a clear signal that america s longstanding friendship with the nation is hanging by a thread changes in our american foreign policy led the author to earnestly petition god for clarity and understanding the words he received were horrifying as judas betrayed christ with a kiss and sold him to his enemies so america will betray israel and sell her to her enemies what will happen if america plays the judas card will this bring the wrath

of god upon our land is there still time for a faithful remnant to emerge jones has written the judas factor as a prophetic word to america readers can follow the author as he treks through the events in the scriptures from the last supper through the betrayal of christ see what lies ahead for the church as we approach midnight in america an indispensable introduction to roman society culture law politics religion and daily life as they relate to the study of the new testament the roman empire formed the central context in which the new testament was written anyone who wishes to understand the new testament texts must become familiar with the political economic societal cultural and religious aspects of roman rule much of the new testament deals with enabling its readers to negotiate in an array of different manners this pervasive imperial context this book will help the reader see how social structures and daily practices in the roman world illumine so much of the content of the new testament message for example to grasp what paul was saying about food offered to idols one must understand that temples in the roman world were not churches and that they functioned as political economic and gastronomic centers whose religious dealings were embedded within these other functions brief in presentation yet broad in scope the roman empire and the new testament an essential guide will introduce students to the information and ideas essential to coming to grips with the world in which early christianity was born everybody loves to be encouraged a pat on the back a helping hand a kind word not everyone can be a great preacher or bible class teacher but everyone can be an encourager and that includes you it doesn't matter if you are young or old a woman or a man rich or poor god has already given you everything you need to be an encourager all you have to do is put to use those abilities you already have you too can become a barnabas a son of

encouragement all you have to do is practice being an encourager you will be absolutely astounded at what it will do for other people and most of all for you the content of a pocket manual to understand the spiritual factor in jesus five modern revelations is the architecture of spirituality which means the constant spiritual structures that we find in our search for our soul this is the purpose of life whereby we must learn to do god s will rather than our own will and as we do so we build up our soul to the point that it hopefully has immortal potential sufficient to earn us eternal life this invisible spiritual architecture includes its foundation and its pillars both crowned off by heaven above which reaches down to mankind below in various ways like transmitting to us various spiritual texts for our study jesus laid the foundation for this spiritual factor when he authored or authorized the transmission and publication of five revelations all on american soil within the 125 year period between 1851 and 1976 jesus five modern revelations1 the history of the origin of all things 18512 the revealed translation of john s revelation 19083 the historical fulfillment of john s revelation 19084 the urantia book 19555 a course in miracles 1976these writings contributed the pillars of this spir itual architecture which are the names of our chapters and those chapter names are mostly the same in this book as in its parent book only reduced in size and complexity and some chapters have been eliminated in order to use our limited space to focus on the most important information that affects our daily lives the most chapter titlesi god and his universeii jesus creator son of our local universeiii the original paradisiiv the separation from godv the atonement and healingvi the purpose of lifevii the indwelling fragment of godviii the creation of the soulix the ascension planx the final paradisexxi the moral parameters of lifeeach of these

pillars and all of these revelations teach us a little bit more about this spiritual architecture so that we can raise our consciousness in order to live by higher laws than our own selfishness which are the laws of the jungle so each major religion on earth offers its own mythology to explain the source and meaning of this invisible architecture but they all fail to provide a full explanation just as we will fail because of the difficulty of the task and the scarcity of details available however we have the advantage of being given by jesus these five modern revelations listed above each of these five books offers us various pieces to the puzzle of this overarching architecture of the spirit which we will now piece together into a fuller picture that is not available to us by reading any one of these books by itself the parent research book however if this kind of reduction makes you feel like it took the heart out of this topic of the spirituality in jesus teachings then you may want to refer to the parent book that gave birth to this one that is the 460 page full research version with all quotations thoroughly accounted for that parent book puts back into place everything that we have surgically removed from this one in order to offer you this pocket manual the spiritual factor in jesus five modern revelations nonetheless this little book does give us a beautiful opportunity to present to you the best of these texts in a shortened version so that is what we have done we hope you like it with all of its admitted limitations does saying that jesus christ is a jew hurt jews and jewish communities this is the question that nicholas irish asks nicholas irish's answer yes irish provides ample evidence from history society politics religion and sociology to show that saying that jesus christ is a jew hurts jews and jewish communities irish argues that stating that jesus christ is a jew will push historical processes such as the violent pogroms

that jews experienced in russia and the holocaust that jews experienced in europe this book is a must read for jews and non jews alike it is insightful and very readable even a person without any previous knowledge of jewish history or christianity can understand this book after reading it this book may well hold the key to jewish survival for the 21st century the christian faith has the allegiance of one third of the human race it has succeeded in influencing civilization to such a degree that we now take its existence almost for granted yet it might all have been so different christianity began with the words and deeds of an obscure village carpenter s son who died a shameful criminal s death at the hands of the roman occupiers of his country itself an insignificant outpost of the powerful ruling empire the feverish land of biblical palestine awash with apocalyptic expectations of deliverance from its foreign overlords was hardly short of seers and prophets who claimed to be sent visions from god yet the followers of this man thought he was different so different in fact that some years after his death and asserted resurrection they scandalously insisted not only that he was sent by god but that he was god how a provincial sect with its seemingly outrageous ideas became first the sanctioned religion of the roman empire and then over the course of 2000 years the creed of billions of people is the improbable story that this book tells it is a story of freethinkers friars fanatics and firebrands and of the lay people not just the clerical or the powerful who have made up the great mass of christians over the centuries many introductions to christianity are written by christians for christians this elegant textbook by contrast shows that the history of the religion while often glorious is not one of unimpeded progress but something still more remarkable flawed and human

there is a paul factor cloud that hovers over the new testament that deserves at least a conversation pauls conversion to christianity occurred 37 years after jesus death and resurrection and although paul never met jesus in person he nevertheless went on to personally define jesus and christianity for most of the christian world on one occasion paul made no bones about what he perceived to be his authority according to him he was given absolute and total latitude to carry out a mission that apparently he himself defined when he stated in col 1 25 i am made a minister according to the dispensation of god which is given to me for you to fulfill the word of god the wording of that authority has no resemblance to the authority also given to paul by jesus spirit on the road to damascus the following is what paul said jesus initially told him to open their eyes and to turn them from darkness to light and from the power of satan unto god that they may receive forgiveness of sins

acts 26 18 if those were the instructions actually given by jesus then that is the only authority paul had and it was very specifically and only intended to bring repentance to the gentiles by teaching them to love god and to love others even though paul went on to correctly teach many things about god and his word he also took it on himself to as he would then later describe it fulfill that word however when he fulfilled it he generously changed some of it then added to it and then took away from it since paul assumed to have such authority whatever he decided to teach was to be the fulfillment of the word ultimately that fulfillment would give his perception of spirituality priority over the written word and eventually in today's culture came to discount most of it altogether

jesus christ for contemporary life is an understanding of jesus as the word of god grounded in what can be known historically of jesus and informed by subsequent reflection upon him which hopes to help shape a christian identity characterized by bounded openness don schweitzer moves from the historical jesus to the present in three parts in the first part schweitzer develops an understanding of jesus as the word of god who became incarnate to give the goodness and beauty of god further expression in time and space second he explores how various atonement theories articulate ways in which jesus empowers people to further express this beauty and goodness in their own lives and finally schweitzer explores how jesus relates to people in the church to the events and movements in history to other religions and to christians in their dialogue with god in prayer

Larry Hurtado's *One God, One Lord* has been described as one of the most important and provocative Christologies of all time. Alan F. Segal says the book has taken its place among works on Jesus as one consistently cited, consistently read, and consistently examined in scholarly discourse. Hurtado examines the early cultic devotion to Jesus through a range of Jewish sources. Hurtado outlines an early high Christological theology showing how the Christ of faith emerges from monotheistic Judaism. The book has already found a home on the shelves of many in its two previous editions. In this new Cornerstones edition, Hurtado provides a substantial epilogue of some twenty thousand words which brings this ground-breaking work to the fore once more in a format accessible to scholars and students alike.

Joy is the unexpected reward for outrageous courage and faith based on Jesus's parable of the talents. The *Courage Factor* challenges readers to think of their lives as a priceless commodity that can be leveraged for positive impact. In reflecting on the ups and downs of his own journey, Bob exposes the fear that keeps us isolated, causing us to lock up our gifts and dreams instead of having a positive impact on the world. With our talents, we are left frustrated and unfulfilled, but if we have the courage to pursue our dreams, investing our lives and talents into something meaningful, what results is true joy and fulfillment. Throughout *The Courage Factor*, readers will meet inspiring individuals with stories that illustrate how even our dark moments and

our national leaders want to normalize relations with the sworn enemies of israel for pastor and author dwight jones this troubling development is a clear signal that america s longstanding friendship with the nation is hanging by a thread changes in

our american foreign policy led the author to earnestly petition god for clarity and understanding the words he received were horrifying as judas betrayed christ with a kiss and sold him to his enemies so america will betray israel and sell her to her enemies what will happen if america plays the judas card will this bring the wrath of god upon our land is there still time for a faithful remnant to emerge jones has written the judas factor as a prophetic word to america readers can follow the author as he treks through the events in the scriptures from the last supper through the betrayal of christ see what lies ahead for the church as we approach midnight in america

an indispensable introduction to roman society culture law politics religion and daily life as they relate to the study of the new testament the roman empire formed the central context in which the new testament was written anyone who wishes to understand the new testament texts must become familiar with the political economic societal cultural and religious aspects of roman rule much of the new testament deals with enabling its readers to negotiate in an array of different manners this pervasive imperial context this book will help the reader see how social structures and daily practices in the roman world illumine so much of the content of the new testament message for example to grasp what paul was saying about food offered to idols one must understand that temples in the roman world were not churches and that

they functioned as political economic and gastronomic centers whose religious dealings were embedded within these other functions brief in presentation yet broad in scope the roman empire and the new testament an essential guide will introduce students to the information and ideas essential to coming to grips with the world in which early christianity was born

the content of a pocket manual to understand the spiritual factor in jesus five

modern revelations is the architecture of spirituality which means the constant spiritual structures that we find in our search for our soul this is the purpose of life whereby we must learn to do god s will rather than our own will and as we do so we build up our soul to the point that it hopefully has immortal potential sufficient to earn us eternal life this invisible spiritual architecture includes its foundation and its pillars both crowned off by heaven above which reaches down to mankind below in various ways like transmitting to us various spiritual texts for our study jesus laid the foundation for this spiritual factor when he authored or authorized the transmission and publication of five revelations all on american soil within the 125 year period between 1851 and 1976 jesus five modern revelations1 the history of the origin of all things 18512 the revealed translation of john s revelation 19083 the historical fulfillment of john s revelation 19084 the urantia book 19555 a course in miracles 1976these writings contributed the pillars of this spir itual architecture which are the names of our chapters and those chapter names are mostly the same in this book as in its parent book only reduced in size and complexity and some chapters have been eliminated in order to use our limited space to focus on the most important information that affects our daily lives the most chapter titlesi god and his universeii jesus creator son of our local universeiii the original paradiseiv the separation from godv the atonement and healingvi the purpose of lifevii the indwelling fragment of godviii the creation of the soulix the ascenson planx the final paradisexi the moral parameters of lifeeach of these pillars and all of these revelations teach us a little bit more about this spiritual architecture so that we can raise our consciousness in order to live by higher laws than our own selfishness which are the laws of the jungle so each major religion on

earth offers its own mythology to explain the source and meaning of this invisible architecture but they all fail to provide a full explanation just as we will fail because of the difficulty of the task and the scarcity of details available however we have the advantage of being given by jesus these five modern revelations listed above each of these five books offers us various pieces to the puzzle of this overarching architecture of the spirit which we will now piece together into a fuller picture that is not available to us by reading any one of these books by itself the parent research book however if this kind of reduction makes you feel like it took the heart out of this topic of the spirituality in jesus teachings then you may want to refer to the parent book that gave birth to this one that is the 460 page full research version with all quotations thoroughly accounted for that parent book puts back into place everything that we have surgically removed from this one in order to offer you this pocket manual the spiritual factor in jesus five modern revelations nonetheless this little book does give us a beautiful opportunity to present to you the best of these texts in a shortened version so that is what we have done we hope you like it with all of its admitted limitations

does saying that jesus christ is a jew hurt jews and jewish communities this is the question that nicholas irish asks nicholas irish's answer yes irish provides ample evidence from history society politics religion and sociology to show that saying

that jesus christ is a jew hurts jews and jewish communities irish argues that stating that jesus christ is a jew will push historical processes such as the violent pogroms that jews experienced in russia and the holocaust that jews experienced in europe this book is a must read for jews and non jews alike it is insightful and very readable even a person without any previous knowledge of jewish history or christianity can understand this book after reading it this book may well hold the key to jewish survival for the 21st century

the christian faith has the allegiance of one third of the human race it has succeeded in influencing civilization to such a degree that we now take its existence almost for granted yet it might all have been so different christianity began with the words and deeds of an obscure village carpenter s son who died a shameful criminal s death at the hands of the roman occupiers of his country itself an insignificant outpost of the powerful ruling empire the feverish land of biblical palestine awash with apocalyptic expectations of deliverance from its foreign overlords was hardly short of seers and prophets who claimed to be sent visions from god yet the followers of this man thought he was different so different in fact that some years after his death and asserted resurrection they scandalously insisted not only that he was sent by god but that he was god how a provincial sect with its seemingly outrageous ideas became first the sanctioned religion of the roman empire

and then over the course of 2000 years the creed of billions of people is the improbable story that this book tells it is a story of freethinkers friars fanatics and firebrands and of the lay people not just the clerical or the powerful who have made up the great mass of christians over the centuries many introductions to christianity are written by christians for christians this elegant textbook by contrast shows that the history of the religion while often glorious is not one of unimpeded progress but something still more remarkable flawed and human
