your inner child finding new hobbies to try the frustrating side of
meditation and of course what happens when you mistake a mango for a
custard apple you too really can find something every day to be happy
about moments of inspired visions hard work and being with gentle souls
mold us by giving us energy to move and change in physics a moment is
defined as the effect of a force that causes an object to turn around a
chosen pivot point this perfectly describes the ideas expressed in
moments from the side yard life is about the effects of forces that help
us see the world from multiple points of view moments that bring us joy
and moments that make us reconsider our current situations taking time
to absorb the energy of the moment is what lifts us holds us up when the
spinning gets too fast staying anchored to a pivot point keeps us from
flying off course reminds us to stay true to ourselves my side yard is
my pivot point what is yours in moments from the side yard each painting
is followed by a poem and each poem by a journal prompt with pages for
you to write your own thoughts i hope you find energy in the forces that
move you and a pivot point from which to mind your moments some poems
are fun to read others make you feel expressive moments is both each
poem will make you reflect on what you are where you are and why you are
and above all who you are these poems are a must have moments of soul is
a philosophical inquiry into four distinctive powers of humanity free
choice personal identity honor and faith the theme through all four
powers is the paradox of soul as the power of attraction between persons
not the hidden attribute of an individual while the inquiry aims to
develop our powers of mutual attraction it exposes some common mistakes
of our times such as reducing mind to brain function mixing personal
identity with ethnic pride and confusing faith with religious belief the
method is to avoid making images or analogies in order to state clear
problems and find their solutions this gratitude journal will help you
be grateful for the good and bad moments of your life by dedicating a
few minutes a week and you decide which day you will begin to notice
small things and small miracles in your life you will understand that it
is worth being grateful for small things and you can smile more often
the simple word thank you can contrary to appearances change your life
it is an adventure for 52 weeks it may seem like a long time but
contrary to appearances it is a moment that will help you be a happier
and better person a wonderful gift idea all year round for yourself or
someone you care stay positive and let this beautiful book accompany you
with your daily journey the past she can't remember just won't let her

a broken heart for ethan getting to know the resilient woman that alexis

moments of inspired visions hard work and being with gentle souls mold us by giving us energy to move and change in physics a moment is defined as the effect of a force that causes an object to turn around a chosen pivot point this perfectly describes the ideas expressed in moments from the side yard life is about the effects of forces that help us see the world from multiple points of view moments that bring us joy and moments that make us reconsider our current situations taking time to absorb the energy of the moment is what lifts us holds us up when the spinning gets too fast staying anchored to a pivot point keeps us from flying off course reminds us to stay true to ourselves my side yard is my pivot point what is yours in moments from the side yard each painting is followed by a poem and each poem by a journal prompt with pages for you to write your own thoughts i hope you find energy in the forces that move you and a pivot point from which to mind your moments
