2001

the science focus second edition is the complete science package for the teaching of the new south wales stage 4 and 5 science syllabus the science focus second edition package retains the identified strengths of the highly successful first edition and includes a number of new and exciting features improvements and components the innovative teacher edition with cd allows a teacher to approach the teaching and learning of science with confidence as it includes pages from the student book with wrap around teacher notes including answers hints strategies and teaching and assessment advice

ScienceFocus 7

2001

the science focus series has been written for the nsw science syllabus stages 4 and 5 it includes material that addresses the learning outcomes in the domains of knowledge understanding and skills publisher s website

Focus on Life Science

2008

jan mayen is a volcanic island surrounded by the deep greenland iceland and norwegian seas there atmospheric and oceanic processes unleash potential energy that forces very dynamic interactions between sea and air this unique geophysical focal point generates climatic variability in northern europe and supports marine biological production that sustains the yield of large living resources the marine populations are clearly fluctuating with variations in climate and raises questions about effects of man made climate change since the last ice age the sinking of greenland sea deep water has been a substantial driving force for the global thermo haline circulation which feeds warm atlantic water into the nordic seas global warming may interact with the deep water formation and force feedback mechanisms that express themselves beyond imagination the book addresses such problems to raise an interest for doing research on the island and in its waters the potentials for doing that increases when the island s loran c station closes down in 2005 the book recommends how the international scientific community may gain access to this really challenging arena for local regional and global research it is a blueprint for the logistics required for science to succeed in a very remote and physically demanding place on

earth

fully revised and updated provides complete coverage of the stage 4 and stage 5 science syllabus and addresses all the learning outcomes in the domains of knowledge understanding and skills each chapter of the student book addresses at least one prescribed focus area in detail

Science Focus 4 Coursebook

2005

the science focus series has been written for the nsw science syllabus stages 4 and 5 it includes material that addresses the learning outcomes in the domains of knowledge understanding and skills publisher s website

Science Focus 3

2009

the science focus series has been written for the nsw science syllabus stages 4 and 5 it includes

material that addresses the learning outcomes in the domains of knowledge understanding and skills publisher s website

Science Focus

2009

fully revised and updated provides complete coverage of the stage 4 and stage 5 science syllabus and addresses all the learning outcomes in the domains of knowledge understanding and skills each chapter of the student book addresses at least one prescribed focus area in detail

Science Focus 4

2005

the science focus series has been written for the nsw science syllabus stages 4 and 5 it includes material that addresses the learning outcomes in the domains of knowledge understanding and skills publisher s website

Focus on Science

1987

environmental education has often blurred the distinction between ecological science and environmental advocacy growing public awareness of environmental problems and desire for action may be contributing to this blurring there is a need to clarify the distinction between the role of ecological science and the role of social and political values for the environment within environmental education this book addresses this need by examining the changing perspectives of ecology in education and the changing perspectives of education in environmental education guidelines are provided for assessing the science and education perspectives within environmental education along with suggested frameworks for development of programs and resources that integrate current science education and action this book will be of interest to environmental educators ecologists interested in environmental education and curriculum and resource developers

Science Focus

2004

fully revised and updated provides complete coverage of the stage 4 and stage 5 science syllabus and addresses all the learning outcomes in the domains of knowledge understanding and skills each chapter of the student book addresses at least one prescribed focus area in detail

Science Focus Three

2004

the science focus series has been written for the nsw science syllabus stages 4 and 5 it includes material that addresses the learning outcomes in the domains of knowledge understanding and skills publisher s website

Science Focus 2 Coursebook

2005

fully revised and updated provides complete coverage of the stage 4 and stage 5 science syllabus and addresses all the learning outcomes in the domains of knowledge understanding and skills each chapter of the student book addresses at least one prescribed focus area in detail

basic and advanced focus groups illustrates both the different types of focus groups and how to decide among those options in order to produce the most effective focus groups possible a variety of approaches to doing research with focus groups gives readers the tools to develop and examine their research designs starting with the basics advanced coverage in each chapter takes an in depth look at topics such as moderating focus groups using mixed methods and working

with different sizes of groups by taking a practical applied approach the author gives even novice students the knowledge and confidence to design and conduct effective focus group research while simultaneously providing more advanced researchers with the tools and knowledge to refine their current practices
