The Genius of American Politics 1958-10-15

how much of our political tradition can be absorbed and used by other peoples daniel boorstin s answer to this question has been chosen by the carnegie corporation of new york for representation in american panorama as one of the 350 books old and new most descriptive of life in the united states he describes the uniqueness of american thought and explains after a close look at the american past why we have not produced and are not likely to produce grand political theories or successful propaganda he also suggests what our attitudes must be toward ourselves and other countries if we are to preserve our institutions and help others to improve theirs a fresh and on the whole valid interpretation of american political life reinhold niebuhr new leader

Divided America 2007-03-20

divided america tells the biggest story in american politics today it s the story behind the emergence of a ferocious power struggle between conservative republicans and liberal democrats that is tearing the country s politics apart drawing on extensive polling data and close analyses of presidential senatorial and congressional elections over the past fifty years two eminent political scientists show for the first time how partisan warfare has reduced both major parties to minority status and locked them into fierce power struggles in each election cycle thereby making america less stable and more difficult to govern because the two major parties are now evenly balanced in the national electorate control of the white house and congress can shift dramatically with each election neither republicans nor democrats operate with any lock on the presidency house of representatives or senate as demonstrated by the 2006 congressional elections earl black and merle black examine the party battles as they ve played themselves out in the nation s five principal geographic areas each party has developed two important regional strongholds as exemplified in the 2004 elections when republicans won all the electoral votes and sizable majorities of house and senate seats in the south and mountain plains states while the democrats won almost all the electoral votes and large majorities in the northeast and the pacific rim states the midwest is the perennial swing region the authors describe the enormous changes that have occurred in the electorates of each region over the past fifty years with emphasis on how the size and partisan affiliations of key groups have changed and show how these transformations have generated today s unstable two party battles although the relentlessly competitive nature of modern american politics is generally appreciated the regional causes underlying this new state of affairs are not well understood because neither democrats nor republicans can produce national majorities simply by sweeping their regional strongholds they are locked in a fierce power struggle in each election divided america tells the story of these remarkable developments in clear vigorous prose and provides a pragmatic understanding of the strengths and weaknesses of each party for the foreseeable future each party will be within striking distance of winning or losing political power in every national institution understanding the party battles in america s regions is vital to understanding how today s losers can become tomorrow s winners

Debates, Differences and Divisions 2015-08-26

debuting in its first edition this book is organized around the approach that american politics can best be understood by examining the issues that reflect the ideas principles concerns fears morals and hopes of the american people debates differences and divisions looks at twenty five hot button issues affecting american politics and policy today the author argues that these issues are the heart and soul of the american political system serving as the basis for the disagreements that drive our political system into action

What's Good for Business: Business and American Politics since World War II 2012-03-13

this volume showcases the most exciting new voices in the fields of business and political history while the media frequently warns of the newfound power of business in the world of politics the authors in this book demonstrate that business has mobilized to shape public policy and government institutions as well as electoral outcomes for decades rather than assuming that business influence is inevitable the chapters explore the complex evolution of this relationship in a wide range of different arenas from attempts to create a corporate friendly tax policy and regulations that would work in the interests of particular industries to local boosterism as a weapon against new deal liberalism to the nexus between evangelical christianity and the oil industry to the frustrations that business people felt in struggles with public interest groups the history that emerges show business actors organizing themselves to affect government in myriad ways sometimes successfully but other times with outcomes far different than they hoped for the result in an image of american politics that is more complex and contested than it is often thought to be the essays represent a new trend in scholarship on political economy one that seeks to break down the barriers that once separated old subfields to offer a vision of the economy as shaped by politics and political life influenced by economic relationships

Average American Politics 2010-09

average american politics is the book on politics for people who wish they understood what all the fighting is about it takes the reader through some of the most heated subjects of the day giving a history of where a problem originated what the promised solution was supposed to accomplish and what the actual outcomes have been this insightful book goes a step further and suggests possible future ideas designed to save retool or replace these politically charged ideas once you have read average american politics you will never think like an average joe again forget joe the plumber cory the author is here to stay about the author cory merry was inspired to write this book because of the fear most people have of discussing politics since political processes and laws aren t taught anymore in high school i set out to make the complicated easy for the average american because i am the average american originally from california merry now lives in las vegas for more information visit averageamericanpolitics.com publisher s site strategicpublishinggroup.com title averageamericanpolitics.html

Beyond the Boundaries 2017-09-29

in the past african american aspirations for political office were assumed to be limited to areas with sizeable black population bases by and large black candidates have rarely been successful in statewide or national elections this has been attributed to several factors limited resources available to african american candidates or identification with a black liberationist ideological thrust other factors have been a relatively small and spatially concentrated primary support base of black voters and the persistent resistance of many white voters to support black candidates for these reasons the possibility of black candidates winning elections to national office was presumably just a dream conventional wisdom conceded a virtual cap on both the possible number of black elected officials and the level of elective office to which they could ascend but objective political analysis has not always made sufficient allowances for the more universal phenomenon of individual political ambitions the contributors to this volume explore the ways ambitious individuals identified and seized upon strategies that are expanding the boundaries of african american electoral politics this volume is anchored by a symposium that focuses on new possibilities in african american politics both the electoral contests of 2006 and the barack obama presidential campaign represent an emergent dynamic in american electoral politics analysts are beginning to agree that the contours of social change now make the electoral successes of black candidates who are perceived as ideologically and culturally mainstream increasingly likely the debate captured in this volume will likely inspire further scholarly inquiry into the changing nature and dimensions of the larger dynamic of race in american politics and the subsequent changing political fortunes of african american candidates

American Politics 2008

a history of american political theories is a comprehensive attempt to understand the full sweep of american political thought since the founding working within the liberal progressive tradition merriam reviewed american political history in its entirety from the founding down to his own day he was not out to reduce political thought to a single element such as economics alone his aim was to encompass the whole of modern social science the political science of the liberal progressive tradition has roots and assumptions that were born in this period and nurtured by scholars such as merriam the progressive tradition in general and merriam in particular interpreted the rise of a new science of politics that would be required for the liberal progressive world view he represented his work stands at a momentous fork in the road two great traditions of how american democracy should be understood interpreted and analyzed parted company and afterward each went their separate ways these traditions are represented respectively by the founders and the liberal progressives there was much at stake in these academic debates though the consequences were not entirely foreseen at the time an overview of the authors works and general source material covered in history of american political theories is impressive merriam viewed the study of american democracy as an eclectic activity embracing the broadest definition of the social sciences with particular emphasis on psychology such a transformation required that the social sciences be grouped as a whole rather than fragmented into separate and distinct academic departments

A History of American Political Theories 2017-07-12

deadlock and disillusionment american politics since 1968 is an insightful consideration of the events people and policy debates that have shaped and continue to influence even control the current political era rejects conventional wisdom that the dominant force shaping recent american politics in the last half century has been the rise of the right considers the achievements and frustrations of each administration from nixon to obama in its assessment of contemporary u s politics features authorship by an expert scholar in the field who takes a thematic rather than a partisan approach to recent american politics offers a concise comprehensive and thoroughly up to date synthesis of the literature in the field and concludes with a comprehensive bibliographical essay an aid to student research

Deadlock and Disillusionment 2016-04-04

populists and progressives alerts readers to dramatic changes in the ideological and political structure of america s democratic and republican parties roiling washington and shaping the 2020 presidential election america now has four distinct contentious political orientations progressive liberal conservative and populist the least well understood are the progressives whose programs are often confused with socialism and populists stigmatized as reactionaries each has its own agenda and presses programs that are incompatible with one another auguring protracted strife and paralysis the book carefully elaborates the substance of each movement and analyses the social political and economic forces driving them it assesses their staying power and prospects in the 2020 presidential election the analysis reveals that most contemporary american political commentary is intensely partisan and relies on obsolete notions of democrat and republican party doctrine and rivalry obscuring the transformation of american society politics and economy populists and progressives assists readers to dispel the fog allowing them to judge the present danger and help in the search for consensus solutions

Populists And Progressives: The New Forces In American Politics **2020-05-20**

this well known survey tells the story of american politics during the 1890s

Years of Decision 1993

this is a guide to the field of american politics

The American Political Dictionary 1997

Understanding American Politics 1986

this textbook provides students of us politics with an informed scholarly analysis of recent developments in the american political environment using historical background to contextualize contemporary issues as the ninth edition this book reviews a time of political controversy in the united states touching on topics such as gender economic policy gun control immigration the media healthcare the covid 19 pandemic and the widespread social protests against police brutality the book looks both backwards to trump's presidency and forward to biden's ultimately the editors and contributors evaluate the significance of these events on the future of american politics providing a perspective that is at once broad and meticulous

Understanding American Politics Through Fiction 1977

one of our most eminent historians reminds us of the commanding role party politics has played in america's enduring struggle against economic inequality there are two keys to unlocking the secrets of american politics and american political history so begins the politicians the egalitarians princeton historian sean wilentz's bold new work of history first america is built on an egalitarian tradition at the nation's founding americans believed that extremes of wealth and want would destroy their revolutionary experiment in republican government ever since that idea has shaped national political conflict and scored major egalitarian victories from the civil war and progressive eras to the new deal and the great society along the way second partisanship is a permanent fixture in america and america is the better for it every major egalitarian victory in united states history has resulted neither from abandonment of partisan politics nor from social movement protests but from a convergence of protest and politics and then sharp struggles led by principled and effective party politicians there is little to be gained from the dream of a post partisan world with these two insights sean wilentz offers a crystal clear portrait of american history told through politicians and egalitarians including thomas paine abraham lincoln and w e b du bois a portrait that runs counter to current political and historical thinking as he did with his acclaimed the rise of american democracy wilentz once again completely transforms our understanding of this nation's political and moral character

The War for America 2004-07

during a long period of the twentieth century stretching from the great depression until the reagan years defeat generally characterized the electoral record of the republican party although republicans sometimes secured victory in presidential contests a majority of americans identified with the democratic party not the gop this book investigates how republicans tackled the problem of their party's minority status and why their efforts to boost gop fortunes usually ended in failure at the heart of the republicans minority puzzle was the profound and persistent popularity of new deal liberalism this puzzle was stubbornly resistant to solution efforts to develop a republican version of government activism met little success only the democratic party's decline eventually created opportunities for republican resurgence this book is the first to offer a wide ranging analysis of the topic which is of central importance to any understanding of modern us political history

Developments in American Politics 9 2022-02-27

american politics is typically a story about winners the fading away of defeated politicians and political movements is a feature of american politics that ensures political stability and a peaceful transition of power but american history has also been built on defeated candidates failed presidents and social movements that at pivotal moments did not dissipate as expected but instead persisted and eventually achieved success for the loser s ideas and preferred policies with legacies of losing in american politics jeffrey k tulis and nicole mellow rethink three pivotal moments in american political history the founding when anti federalists failed to stop the ratification of the constitution the aftermath of the civil war when president andrew johnson s plan for restoring the south to the union was defeated and the 1964 presidential campaign when barry goldwater s challenge to the new deal order was soundly defeated by lyndon b johnson in each of these cases the very mechanisms that caused the initial failures facilitated their eventual success after the dust of the immediate political defeat settled these seemingly discredited ideas and programs disrupted political convention by prevailing often subverting and occasionally enhancing constitutional fidelity tulis and mellow present a nuanced story of winning and losing and offer a new understanding of american political development as the interweaving of opposing ideas

The Politicians and the Egalitarians: The Hidden History of American Politics 2016-05-17

with a fighting spirit a fresh perspective and flashes of humor john p avlon tells the story of the vital center in american politics from theodore roosevelt to the present day independent nation is a rallying cry for the moderate majority of americans who are tired of the intolerant voices on the far right and left and choose instead to walk an independent path between these extremes in the belief that what we share as americans is far greater than what divides us

The Republican Party and American Politics from Hoover to Reagan 2011-11-21

this is a book about trump s presidency that makes a brief for the subfield of american political development in the field of political science four factors are considered in this book 1 the american political party system and partisanship 2 the saliency of race 3 the role of the state in american politics and 4 the fate of democracy

Legacies of Losing in American Politics 2018-01-05

american political history a very short introduction captures the richness of american political history focusing primarily on national politics it explores the nature of the two party system key turning points in american political history representative presidential and congressional elections struggles to expand the electorate and critical social protest and third party movements provided by publisher

Independent Nation 2005-02-21

in this timely and provocative volume some of the world s leading political and constitutional theorists come together to debate michael sandel s celebrated thesis that the united states is in the the grip of a flawed public philosophy procedural liberalism beginning with an original stage setting introduction by ronald beiner and ending with a reply by michael sandel sandel s liberal and feminist critics square off with his communitarian and civic republican sympathizers in a lively and wide ranging discussion spanning constitutional law culture and political economy practical topical issues of immigration gay marriage federalism adoption abortion corporate speech militias and economic disparity are debated alongside theories of civic virtue citizenship identity and community not only does this volume provide the most comprehensive and insightful critique of sandel s democracy s discontent to date it also makes a very significant substantive contribution to contemporary political and legal philosophy in its own right it will prove essential reading for all those interested in the future of american politics law and public philosophy
