for muslims can help make sharing your faith easier than you think thabiti anyabwile who is himself a convert from islam to christianity instructs you in ways to discuss the good news of christ with your neighbors and friends the gospel for muslims allows you to focus on the people rather than the religious system meant for the average christian it is not an exhaustive apologetic or comparative study of christianity and islam rather it compellingly stirs confidence in the gospel equipping you with the basics necessary to communicate clearly boldly and winsomely recent cultural interest in evangelicalism has led to considerable confusion about what the term actually means many young christians are tempted to discard the label altogether but evangelicalism is not merely a political movement in decline or a sociological phenomenon on the rise as it has sometimes been portrayed it is in fact a helpful theological profile that manifests itself in beliefs ethics and church life deyoung and other key twenty and thirty something evangelical christian leaders present don t call it a comeback the same evangelical faith for a new day to assert the stability relevance and necessity of christian orthodoxy today this book introduces young new and under disciplined christians to the most essential and basic issues of faith in general and of evangelicalism in particular kevin deyoung and contributors like russell moore darrin patrick justin taylor thabiti anyabwile and tim challies examine what evangelical christianity is and does within the broad categories of history theology and practice they demonstrate that evangelicalism is still biblically and historically rooted and remains the same framework for faith that we need today the cliché is that those who do not learn from the mistakes of the past are doomed to repeat them but thabiti anyabwile contends that it is not the mistakes we must study it is the people who have overcome them so he presents three of the most influential african american pastors in american history who can teach us what faithful ministry entails lemuel haynes 1753 1833 reminds pastors that eternity must shape our ministry daniel a payne 1811 1893 stresses the importance of character and preparation to faithful shepherding and francis j grimké 1850 1937 provides a vision for engaging the world with the gospel while they are from the african american tradition they like all true saints belong to all christians of every background and era distinctive for its use of rare and out of print messages anyabwile s work is valuable as a reference as well as a devotional resource responding to the perennial temptation to tame the message about jesus leaders such as john macarthur john piper thabiti anyabwile and r c sproul challenge christians to hold fast to the faith by emphasizing the importance of maintaining a pure and unadulterated view of the gospel whether it s looking back at the new testament and the church fathers or forward to the church s continued mission of faithful biblical preaching and thoughtful cultural engagement the contributors draw on their extensive ministry experience to offer readers a thoughtful plea for safeguarding the message of the gospel in the midst of our pluralistic world is the black church dying the picture is mixed and there are many challenges the church needs spiritual revival but reviving and strengthening the black church will require great wisdom and courage reviving the black church calls us back to another time borrowing the wisdom of earlier faithful christians but more importantly it calls us back to the bible itself for there we find the divine wisdom needed to see all quarters of the black church live again thriving in the spirit of god it s pastor and church planter thabiti anyabwile s humble prayer that this book might be useful to pastors and faithful lay members in reviving at least some quarters of the black church and churches of every ethnicity and context all for the glory of god african american theologians tend not to find philosophy as a meaningful tool to advance their theological positions african americans and christianity offers an engaging and thorough bridge between african american theology and philosophy of religion one of the most significant developments within contemporary american christianity especially among younger evangelicals is a groundswell of interest in the reformed tradition in reformed resurgence brad vermurlen provides a comprehensive sociological account of this phenomenon known as new calvinism and what it entails for the broader evangelical landscape in the united states vermurlen develops a new theory for understanding how conservative religion can be strong and thrive in the hypermodern western world his paradigm uses and expands on strategic action field theory a recent framework proposed for the study of movements and organizations that has rarely been applied to religion this approach to religion moves beyond market dynamics and cultural happenstance and instead shows how religious strength can be fought for and won as the direct result of religious leaders strategic action field theory is a sociological theory that explains how and why social movements and organizations emerge and change over time it is based on the idea that individuals act in a strategic manner to achieve their goals and that these actions are influenced by the social structure and the resources available to them
