in his bestselling *The End of History and the Last Man* Francis Fukuyama argued that the end of the cold war would also mean the beginning of a struggle for position in the rapidly emerging order of 21st century capitalism. In *Trust: A Penetrating Assessment of the Emerging Global Economic Order* after history he explains the social principles of economic life and tells us what we need to know to win the coming struggle for world dominance challenging orthodoxies of both the left and right. Fukuyama examines a wide range of national cultures in order to divine the underlying principles that foster social and economic prosperity insisting that we cannot divorce economic life from cultural life. He contends that in an era when social capital may be as important as physical capital only those societies with a high degree of social trust will be able to create the flexible large scale business organizations that are needed to compete in the new global economy. A brilliant study of the interconnectedness of economic life with cultural life *Trust* is also an essential antidote to the increasing drift of American culture into extreme forms of individualism which if unchecked will have dire consequences for the nation's economic health.

some have said that the word scam is too strong for a book that argues against the church s most sacred cow but scam is exactly the right word because tithing has been put forth as a duty that will earn that which christ suffered and died to freely give us not only is it wrong to suggest that tithing will do what christ died to do such as open heaven or make one right with god but such teaching is an insult to his sacrifice and in reality an enemy to the cross even as circumcision was in the early church our ministers have been naively leading the church back under the old testament law and its curse with imagined tithing promises that have gone way beyond even that which malachi promised under the guise of obedience faithfulness and stewardship we ve been duped into believing we must prove ourselves without realizing that practicing the law tithing blocks us from becoming sons and heirs according to galatians 4 5 do you know that the book of malachi was never intended to be instruction to the new testament church all the

ordinances in malachi including tithing were nailed to jesus cross according to colossians chapter 2 tithing is part of the law according to matt 23 23 malachi 3 7 and hebrews 7 18 the practice of tithing the law can expose you to the curse of the law causing incurable sicknesses debt death and many other problems according to the apostle paul in galatians 3 10 the practice of tithing actually removes you from the state of grace and places you back the category of sinner hebrews 5 4 tithing causes you to frustrate the grace of god and causes christ to profit you nothing galatians 2 21 and 5 2 making tithing a practice today actually causes the new testament to become another gospel according to paul in galatians 1 6 order the great tithing scam today and find out what else tithing will or won't do

policy during the great depression and shared them with a vast readership in his syndicated column today and tomorrow unemployment monetary and fiscal policy and the merits and drawbacks of free markets were just a few of the issues he helped explain to the public at a time when professional economists who were also skilled at translating abstract concepts for a lay audience had yet to come on the scene after world war ii lippmann focused on foreign affairs but revisited economic policy when he saw threats to liberal democracy in addition to pointing out the significance of the marshall plan and the world bank he addressed the emerging challenge of inflation and what he called the riddle of the sphinx whether price stability and full employment could be achieved in an economy with strong unions
