The Poetical Works of Mark Akenside and John Dyer

1855

The author penned this revenge thriller in the vein of a twilight zone episode that turns the tables on trophy hunters. Blueink reviews a gruesome tale that clearly and passionately condemns trophy hunting. Kirkus reviews Jack is a husband, father, and chiropractor from Wisconsin who every year travels to Africa to satisfy his thirst for killing as a trophy hunter. Even though his wife does not approve of his habit, however, the tables are turned when Jack is drugged and whisked away to a secret ranch where he finds himself with two other trophy hunters who've met the same fate. To his horror, Jack learns that he and his new friends are now the hunted, weaponless and without food or water. They must pit themselves against skilled bow hunters who pursue them as if they were no more valuable than the animals they themselves had killed. The three struggle to outwit their killers and run for their lives. The ordeal forces Jack to question his passion for killing animals just for the sake of sport, separated from his family and with his life hanging in the balance, he begins to see himself as no less of a monster than the men who now seek to murder him for sport. Gutted by guilt, he desperately tries to escape so that he can return to his family and make things right. Will Jack be able to escape his captors alive and if so, will his life ever be the same again?

at the end of the nineteenth century theodore roosevelt t s van dyke and other elite men began describing their big game hunting as manly sport with the rifle they also began writing about their experiences publishing hundreds of narratives of hunting and adventure in the popular press and creating a new literary genre in the process but why did so many of these big game hunters publish what was writing actually doing for them and what did it do for readers in exploring these questions the hunter elite reveals new connections among hunting narratives publishing and the american conservation movement beginning in the 1880s these prolific hunter writers told readers that big game hunting was a test of self restraint and manly virtues and that it was not about violence they also opposed their sportsmanlike hunting to the slaughtering of game by british imperialists even as they hunted across north america and throughout the british empire their references to americanism and manliness appealed to traditional values but they used very modern publishing technologies to sell their stories and by 1900 they were reaching hundreds of thousands of readers every month when hunter writers took up conservation as a cause they used that reach to rally popular support for the national parks and for legislation that restricted hunting in the us canada and newfoundland the hunter elite is the first book to explore both the international nature of american hunting during this period and the essential contributions of hunting narratives and the publishing industry to the north american conservation movement
