

## Free reading Environmental health from global to local Copy

global to local is a nonprofit organization that works to advance health equity and build community power in south king county washington learn about their culturally relevant programming support their work and read their latest news and updates global to local g2l was founded by the desire to build a new approach to community health in the us launched by global health groups community organizations and city agencies our work began as a simple concept to adapt global health strategies to underserved communities in the us we ve spent the last six years refining this concept glocalization is the adaptation of global and international products into the local contexts they re used and sold in the author argues that glocalization is necessary to overcome the challenges of supply chains imports and exports and international dependency in the post pandemic era learn how local health departments can adopt and adapt global health approaches to improve health outcomes in the u s find guidance success stories and tools for cultural cognitive affective environmental and program adaptation learn how global development actors can work together to promote inclusive local and sustainable approaches to development explore topics such as empowerment enablement and evolution in a three week online event with experts and partners this chapter explores how cocreation can support the localization of the sustainable development goals sdgs and foster local sustainability it examines the challenges and benefits of translating global goals into national and local agendas and the role of cocreation in this process learn how to adapt and adopt global health interventions and practices to the needs of u s communities the toolkit provides benefits steps tools and guidance for local public health organizations as well as a case study and checklist based on these cases we explore comparatively the challenges and opportunities for the implementation of global development agendas at the local level in africa and in doing so argue that while national guidance is imperative local ownership and adaptation of these agendas is necessary glocalization is the adaptation of global products and services for a local market learn what it is why it matters and how to leverage it for international growth with acclaro a localization provider the partnership set out to answer the question of whether any of these approaches that have been effective overseas might be relevant to local communities this case study sets forth a detailed model of an organization designed to adapt proven global health strategies to vulnerable populations in the united states 1 we simply don t invest enough in local activation my favorite definition of strategy execution is by a harvard business review article noting execution is the ability to seize opportunities global to local g2l is a nonprofit organization that works to advance health equity and improve the health of local communities by applying best practices from around the world we partner with learn more about global to local wgha convened the parties that formed global to local an initiative to improve health in low income u s communities using proven global health strategies from global to local migration as an opportunity for sustainable cities and communities the 2030 agenda along with its 17 sustainable development goals sdgs and 169 sub goals have substituted the millennium development goals that were adopted by 189 na tions in 2000 the global to local campaign is really driven by the idea of inclusion we will explore how to get the right voices at the table how to ensure they are heard and how to define actionable steps that all have a role to play in delivery the local global connections revolve around three broad and overlapping themes the critical scrutiny of older concepts and the emergence of new ones as well as alternative vocabularies an appreciation of the necessity of an interdisciplinary perspective and attention to the significance of the relationship between theory and practice the latest annual report of the standards and trade development facility stdf issued on 20 june marks the 20th anniversary of the stdf tracing how it has evolved into a robust knowledge network and partnership of stakeholders from the public and private sector the report outlines the stdf s crucial work in helping developing countries comply with sanitary and phytosanitary sps cdk global is a leading provider of cloud based software to dealerships the company shut down most of its systems out of an abundance of caution for customers on wednesday about the survey in april and may 2024 pwc surveyed 547 executives and senior professionals across more than 30 countries and territories about one third of respondents hold c suite roles and the remainder are senior professionals across business functions including sustainability finance and risk cdk global a provider of software for car dealerships has shut down many critical systems to defend against cyberattacks local news sports opinion for subscribers nky advertise obituaries
