does buddhism require faith can an atheist or agnostic follow the buddha s teachings without believing in reincarnation or organized religion this is one man s confession in his classic buddhism without beliefs stephen batchelor offered a profound secular approach to the teachings of the buddha that struck an emotional chord with western readers now with the same brilliance and boldness of thought he paints a groundbreaking portrait of the historical buddha told from the author s unique perspective as a former buddhist monk and modern seeker drawing from the original pali canon the seminal collection of buddhist discourses compiled after the buddha s death by his followers batchelor shows us the buddha as a flesh and blood man who looked at life in a radically new way batchelor also reveals the everyday challenges and doubts of his own devotional journey from meeting the dalai lama in india to training as a zen monk in korea to finding his path as a lay teacher of buddhism living in france both controversial and deeply personal stephen batchelor s refreshingly doctrine free life informed account is essential reading for anyone interested in buddhism

## ***The Faith to Doubt 2015-04-01***

kierkegaard said that faith without doubt is simply credulity the will to believe too readily especially without adequate evidence and that in doubt can faith begin all people involved in spiritual practice of whatever persuasion must confront doubt at one time or another and find a way beyond it to belief however temporary but faith is not equivalent to mere belief faith is the condition of ultimate confidence that we have the capacity to follow the path of doubt to its end and courage in this engaging spiritual memoir stephen batchelor describes his own training first as a tibetan buddhist and then as a zen practitioner and his own direct struggles along his path it is most uncanny that we are able to ask questions for to question means to acknowledge that we do not know something but it is more than an acknowledgement it includes a yearning to confront an unknown and illuminate it through understanding questioning is a quest batchelor is a contemporary buddhist teacher and writer best known for his secular or agnostic approach to buddhism he considers buddhism to be a constantly evolving culture of awakening rather than a religious system based on immutable dogmas and beliefs buddhism has survived for the past 2 500 years because of its capacity to reinvent itself in accord with the needs of the different asian

societies with which it has creatively interacted throughout its history as buddhism encounters modernity it enters a vital new phase of its development through his writings translations and teaching stephen engages in a critical exploration of buddhism s role in the modern world which has earned him both condemnation as a heretic and praise as a reformer

## **Partial SOVAN for Atheists 2012-05-31**

contrast to popular belief this book demonstrates that you do not have to be religious to get benefits of philosophy attached to it looking at a very unique angle this book provides a path to be self control and have contentment and happiness possible even under life dilemmas that force people to seek refuge in various religions surprisingly the guidance toward this independence and contentment is presented in a simple manner by observing basic life forms the book presents several other novelty concepts in an interesting manner that can not be read elsewhere author admits the guilt for not only presenting an over decorated religious concept in a very simple manner but also giving a vision for readers to view beyond that concept hence this book may be categorised under self development philosophy and also under religion the term sovan comes under buddhist domain but here that term is considered as a philosophy emphasising the value of that instead of demanding respect on it the benefit of sovan is assumed obvious once the term is understood therefore benefits those could have been overlooked are listed instead author proposes partial sovan but never recommended not to attain full sovan buddhist readers will find this book interesting as this provides a fresh view on the buddhist concepts allowing the reader to deepen his or her understanding as for an additional service book states possible contradictions allowing the reader to make his or her own comparisons to improve understanding

## **A Hint of Saffron: A Buddhist's thoughts on religious belief in the twenty first century 2014-12-02**

whether you are an atheist or a fundamentalist christian this book offers an entirely novel approach to the science versus religion divide at times provocative but understanding with seriousness interwoven with touches of humour the author shows how opinions and inflexible presuppositions can develop into becoming absolute truths not only of sober relevance for

the teaching of comparative religion there is food for thought at a time when the positive contribution of religious belief to individuals and society is being undermined

## **Buddhism 2017-12-14**

this work supports the proposition that the eradication of religion will make us live as one and there is only one way to remove religion and that is to remove the need for it armed only with reason this work will prove that due to ignorance religion is just an invention to fill a need this work has three segments the first explores from the point of view of a christian practicing pagan the process on how myth became reality it will prove that god was invented and re invented perpetually for necessity and convenience it is that need that gave the bible its religious relevance understood with a naked mind the bible is far from being just a religious document but a political one this work explores why religion and politics cannot and will not separate hence unavoidably it dipped its hands into one painful political issue the israeli palestinian conflict the second part elucidates that if the foundation is a myth it only follows that what was founded on it jesus is a lie it will give proof to the fact that the new testament was manipulated to further vested interest understood with an unconditioned mind that is without the traditional spirituality attached to it it will prove that jesus is just selfishly scheming to regain his grandfather david s throne it will also prove that jesus is gay the last part is my way of introducing buddhism it could shed light to what western science is exiting themselves about it answers why man will never find the missing link it explains how and why advanced civilizations deteriorated to their present state in our fight against virus causing disease we must explore all avenues to defeat it buddhism offers one buddhism is not only about science it is also about religion it delves into the reality of a soul buddhism gives us reason on why we must discriminate on account of race or for any other reason

## **Why Buddhism? the Evil of Religion 2004-04**

after buddhism the culmination of four decades of study and practice in the tibetan zen and theravada traditions is stephen batchelor s attempt to set the record straight about who the buddha was and what he was trying to teach combining critical readings of the earliest canonical texts with narrative accounts of five members of the buddha s inner circle batchelor depicts the buddha as a pragmatic ethicist rather than a dogmatic metaphysician he envisions buddhism as a constantly

evolving culture of awakening whose long survival is due to its capacity to reinvent itself and interact creatively with each society it encounters

## ***The Natural History of Atheism 1877***

an essential collection of stephen batchelor s most probing and important work on secular buddhism as the practice of mindfulness permeates mainstream western culture more and more people are engaging in a traditional form of buddhist meditation however many of these people have little interest in the religious aspects of buddhism and the practice occurs within secular contexts such as hospitals schools and the workplace is it possible to recover from the buddhist teachings a vision of human flourishing that is secular rather than religious without compromising the integrity of the tradition is there an ethical framework that can underpin and contextualize these practices in a rapidly changing world in this collected volume of stephen batchelor s writings on these themes he explores the complex implications of buddhism s secularization ranging widely from reincarnation religious belief and agnosticism to the role of the arts in buddhist practice he offers a detailed picture of contemporary buddhism and its attempt to find a voice in the modern world

can you be an atheist and still believe in god can you be a true believer and still doubt can zen give us a way past our constant fighting about god brad warner was initially interested in buddhism because he wanted to find god but buddhism is usually thought of as godless in the three decades since warner began studying zen he has grappled with paradoxical questions about god and managed to come up with some answers in this fascinating search for a way beyond the usual

arguments between fundamentalists and skeptics warner offers a profoundly engaging and idiosyncratic take on the ineffable power of the ground of all being

## **Why are the Japanese Non-religious? 2005**

over the last 160 years a great dilemma has been hatching out of western spiritual consciousness in our modern existence we have lost faith in the traditional routes by which human beings have come to experience the divine and an acceptance of oneself as having a place in the order of the universe in spiritual atheism steve antinoff argues that the dilemma burning within the west has been given its most fundamental expression by kirilov in dostoyevsky s the possessed god is necessary and so must exist yet i know that he doesn t exist and can t exist but don t you understand that a man with two such ideas cannot go on living according to antinoff spiritual atheism begins with three realizations that our experience of ourselves and our world leaves us ultimately dissatisfied that our dissatisfaction is intolerable and so must be broken through and that there is no god continuing where such writers as christopher hitchens and sam harris left off antinoff s unique and prescient take on deity and spirituality makes this book a critical contribution to the understanding of the quest for salvation and enlightenment in a world full of chaos and need

## **God Is Not One 2010-09-20**

because religion affects almost every aspect of our lives our religious beliefs deserve careful consideration yet it is obvious that our beliefs are heavily influenced by our different cultures and environments so much so that there is often little room left for unbiased reflection most people in the middle east are muslim in india hindu and in the americas christian if you had grown up in pakistan you would probably have become a muslim just as you would probably have become christian had you been born in alabama if so where is the free will in that does the happenstance of your birthplace so determine your outlook that you become like your neighbors some of our beliefs were passed down from generation to generation without proper consideration of the available alternatives advances in communication technology are now giving us access to different cultural traditions as well as to the latest scientific discoveries and are challenging paradigms that were at one time exempt from scrutiny at the same time the quantity and variety of new information that we are now receiving can be overwhelming

paradoxically this often seems to make traditional beliefs more appealing since they offer shelter from the difficulties of deliberately choosing among less well known alternatives the blind faith virus vaccine offers a solution to this paradox by classifying all religions and systems of thought into three simple possibilities making it easier to choose a direction in life it shows new connections between secular buddhism and atheism paganism the abrahamic religions and hinduism and it helps challenge demystify and falsify faith based ideas that are accepted mostly because of religious faith faith by virtue is a concept that goes unquestioned gura s book will assist you in making informed decisions about your beliefs jd stockman apisteivist antitheist humanist

hard is that do you need to be a buddhist to do zen no zen and buddhism are kissing cousins but they aren t married any christian jew muslim or atheist can study zen without comprising his or her beliefs there are three things that will help along the way great faith not faith in a christian sense but simply a firm belief that the zen path will lead to enlightenment great doubt you must be prepared to take nothing for granted and examine everything for yourself from the ground up and great perseverance zen is not instant enlightenment it takes years of constant effort travel the path and enjoy

## **Atheist Secularism and its Discontents 2015-07-14**

this book is a rare attempt and a masterpiece which helps us to understand better the religions like buddhism jainism islam and hinduism most of us absurdly think that all the religions are same teaches same and have different paths to follow many of us wrongly believe that all religions and their founders believe in god soul scriptures and moksha many think that all the shrines stupas and temples are the place of worship of god this book reveals that the truth is opposite to our common belief due to lack of the knowledge of spiritual terms most of the authors are confusing the readers by misusing the spiritual terms this book reveals the correct meaning and the differences between the terms like dharma religion non religion avatara saint self realization enlightenment awakening scriptures ordinary books logic illogic mindfulness mindlessness spiritual atheist moksha nirvana liberation etc all these terms appear alike and are confusing to a layman but this book clarifies the difference between them most of the religions are propagating their contradictory doctrines which are logically untenable at least one of the doctrines must be incorrect some of the religions and their heads are tempering their holy books by deleting editing and adding something and propagating their founders as god or lord while their founders have clearly declared that they are ordinary man or a saint or a son of god or an atheist or a non believer of god many religions are busy in constructing unnecessarily their huge shrines with an enormous expenditure in the memory of their founders where god is not worshiped but a common man generally misunderstood these as a place of worship of god it is an extraordinary unique spiritual book to throw light on such attempts it is strange that some non religions which do not believe in god spirit and soul are declaring their founders and heads as most spiritual in the world can anybody who does not believe in spirit or god or does not seek to know the spirit be called spiritual this is a book which clarifies the most of our inner confusions author is m sc m ed pgdca retired principal got his master s degrees from university of delhi he is religious and extraordinary combination of spiritual and scientific bent of mind he is practicing kriya yoga since 1969 has opportunity of the company

and blessings of great saints he has devoted his life in the pursuit of god spiritual studies and yoga his books are rare masterpieces based upon his spiritual inner experiences and vast studies which are useful for both believers and non believers his writings are commendable research work and a reservoir for further spiritual researches at the time of king ashoka all hindus accepted buddhism to save themselves from the clutches of cruel ashoka but later about 7th to 8th century a d a great saint adi shankara reconverted buddhist back to hinduism without any atrocities or cruelty he left his adobe at an early age of about 32 years both buddhism and jainism are different mat opinion under hinduism and not separate dharma dharma has come from god himself but all religions mat dal sampardaya samaj etc are man made and have their founders but no super mind super scriptures book explains no human power has any authority to restrict or ban the birth of almighty god on earth has any body ever proved that god can t take birth on earth even the religion like christianity are now falsly declaring christ as an avatar of god although christ himself denied so many times in his life that he was not god and christianity has been affirming for the last 2000 yrs that god can t take birth on earth but now christianity is tempering bible and propagating false
