collection of studies aims at offering a comprehensive historico-doctrinal analysis of one of the most fascinating topics in western intellectual history an international team of twenty scholars under edmondo f. lupieri's direction produced mary magdalene from the new testament to the new age and beyond while the historical figure of the magdalene may be lost forever the construction of her literary images and their transformations and adaptations over the centuries are a lively testimony to human creativity and faith different pictures of mary travelled through time and space from history to legend and mythology crossed religious boundaries going beyond the various christianities to become a sign of contradiction for many this book describes a special case of biblical reception history that of the new testament figure of a woman whose presence at the side of jesus has been disturbing for some but proves to be inspiring for others italian translation of my first book of time explains how to tell time and discusses such aspects of time as day and night days of the week and months of the year includes a fold-out clock face for practice for primary k-3 school children this study provides new interpretations of the little-known but fascinating palazzo trinci frescoes relating them for the first time both to their physical context and to their social political and cultural environment chapters show how a humanist agenda subverted the historical and mythical associations more frequently used to promote powerful families to point the trinci family in new directions it also shows how the artists involved adapted established civic religious and chivalric imagery in support of these ideas the book argues that the resulting decorations are highly unusual for the period in their serious political and social purpose positioning the trinci as bringers of peace not war the family is now associated with culture and education and presented as willing to encourage debate about the character of the virtuous ruler and the nature of good government the book will be of interest to scholars working in art history and renaissance studies in dynamics of sudden frenzy explores the development and impact of these renaissance practices of improvisation and oral poetry james k coleman shows how the confluence of humanist culture and the art of oral poetry resulted in an extraordinary turn toward improvisation and spontaneity that profoundly influenced poetry music and politics by examining the culture of improvisation this book reveals the ways in which renaissance thinkers transcended cultural dichotomies both in theory and in practice drawing on a wide range of sources including letters poetry visual art and philosophical texts a sudden the widespread medieval phenomenon of transgression as both a result of and the cause for the exclusion and persecution of those who were considered different it is widely accepted that the essence of a manuscript cannot be fully grasped without studying its marginalia glosses sit on the margins of the text and clarify it adding a whole new dimension to it and becoming an inextricable part of its content similarly no society can be fully understood without knowledge of what lies on its margins for the outliers of any given culture provide us with just as much information as its alleged foundational principles in a time when the western world ponders building walls up against perceived threats and frightening differences this multidisciplinary collection of essays based on original and innovative pieces of research shows that it was mostly through tearing down walls that we learned our way forward this book studies the uses of orality in italian society across all classes from the fifteenth to the seventeenth century with an emphasis on the interrelationships between oral communication and the written word the introduction provides an overview of the topic as a whole and links the chapters together part 1 concerns public life in the states of northern central and southern italy the chapters examine a range of performances that used the spoken word or song concerted shouts that expressed the feelings of the lower classes and were then recorded in writing the proclamation of state policy by town criers songs that gave news of executions the exercise of power
