Computer-Aided Engineering for Manufacture 2012-12-06

the development of the factory of the future by major international corporations such as general motors ibm westinghouse etc now involves many practising engineers this book is an attempt to identify and describe some of the building blocks required for computer aided engineering for manufacture it begins with numerical control and the infrastructure required for the automation of individual islands within existing factories computer aided design and computer aided manufacture are then discussed in detail together with their integration to improve manufacturing efficiency and flexibility robotics and flexible manufacturing systems are examined as well as the management of these systems required for production optimization finally there is an overview of the relatively new field of artificial intelligence which is being increasingly used in most aspects of computer aided engineering for manufacture there are many topics which could have been included or expanded upon with advantage but the authors have attempted to strike a balance so that the reader can obtain the maximum usefulness from a reasonably concise volume

Huebner's Machines Tool Specs: Threading through turning machines 1980

Maschinenmarkt 1983

Das Maschinenmarkt-Magazin 1983 enthält Informationen über die neuesten Maschinenmodelle, die im Jahr 1983 auf den Markt gekommen sind. Es enthält auch Informationen über die technischen Spezifikationen dieser Maschinen und die Preise. Das Magazin ist ein wichtiges Dokument für die Maschinenindustrie und die Maschinenbauer.

Chilton's Iron Age 1981

Das Chilton's Iron Age-Magazin 1981 enthält Informationen über die neuesten Maschinenmodelle, die im Jahr 1981 auf den Markt gekommen sind. Es enthält auch Informationen über die technischen Spezifikationen dieser Maschinen und die Preise. Das Magazin ist ein wichtiges Dokument für die Maschinenindustrie und die Maschinenbauer.
