ability is an important tool in life ability without commitment and awareness is like a vehicle without the engine the shiva sutra enhances one s awareness in a way one sees an opportunity in a difficulty and not a difficulty in an opportunity there is an outside reality and an inside reality of one s mind there is also another dimension called spiritual reality to harmonize all of them is a great awakening ordinary being loves one s own psycho dramas of justification proving one s point of view blaming

being helpless and this leads one to a state of inner poverty to free oneself from these lower states of poverty and see them as errors in one's thinking is part of being effective and experiencing inner prosperity the profound teaching of lord shiva introduces us to a bigger container where one learns to be charitable to one's own self this practice of making a bigger container is essentially spiritual dive deep into these mystic teachings swami sukhabodhananda

shiva means auspicious and everything about lord shiva is auspicious a great personality he is delineated in the vedas agamas and the puranas he is all powerful an embodiment of austerity penance and renunciation during the churning of the mighty ocean he is said to have consumed the deadliest of poisons haalaahala in order to save the world when shiva tried to kill andhakasura who was his own creation the demon turned into the lord's devotee as the touch of the lord's trident destroyed the ignorance that had pervaded his being shiva took his son ganesha's help to bring the tripura demons together as brahma had decreed that their end would come only if they were brought together equipping himself with all possible divine force shiva wrecked havoc on the three cities of tripura in the end however due to the devotion of banasura the city of suvarna was saved shiva relented in one of the fiercest battles that he faced with gajasura and in the end wore the demon's skin blessed the asura such that a linga would come out of the earth and be consecrated as krithivaseshwara just as lord narayana took ten incarnations lord sankara manifested himself as a linga in twelve places our other books here can be searched using bharathasamskruthiprakashana

this book by eminent author jasbir jain explores the many ways the diaspora remembers and reflects upon the lost homeland and their relationship with their own ancestry history of the homeland culture and the current political conflicts amongst the questions this book asks is how does the diaspora relate to their home and what is the homeland s relationship to the diaspora as representatives of the contemporary homeland in another country the last is an interesting point of discussion since the present of the homeland and of the diaspora cannot be equated the transformations that new locations have brought about as migrants have travelled through time and interacted with the politics of their settled lands africa fiji the caribbean islands the uk the us canada as well as the countries created out of british india such as pakistan and bangladesh have altered their affiliations and perspectives this book gathers multiple dispersions of emigrant writers and artistes from south asia across time and space to the various homelands they relate to now the word write is used in its multiplicity to refer to creative expression as an inscription as connectivity and remembrance writing is also a representation and carries its own baggage of poetics and aesthetics categories which need to be problematised vis à vis the writer and his her emotional location

the reason for writing this book is because of god s irrefutable love for the people of india through his only begotten son jesus christ this book explores the records of archeology history of migration language and religion of hinduism and the findings are astonishing in that it is not what we normally expect the author described the character and attributes of the six major hindu deities brahma vishnu shiva indra krishna and rama as written in the ancient sacred vedic hindu texts rig veda samaveda yajur black and white vedas atharva veda upanishads bhagavad gita ramayana mahabharata and the puranas and they are definitely not as common beliefs or rumors passed down from generation to generation a comparison is made with the character and attributes of god as described in the christian bible similarly the author explores the origin of hinduism s major doctrines krishna s claims the samsara cycle trimurti avatars dharma self realizations renunciation of and freedom from attachments yogic meditation demonic possession and minor doctrines like worship idol worship sin death incarnation castes hell curses women astrology etc as found in the ancient sacred vedic texts as mentioned above and compared them with the theology doctrines and practices as found in the christian bible

an extensive examination of the underpinnings of the shaivite tradition reveals the influence of shaivism on the western world discusses shaivism's understanding of sacred sexuality presents the connections between vedic poetry and metaphysics in shiva and the primordial tradition alain daniélou explores the relationship between shaivism and the western world shaivite philosophy does not oppose theology cosmology and science because it recognizes that their common aim is to seek to understand and explain the nature of the world in the western world the idea of bridging the divide between science and religion is just beginning to touch the edges of mainstream thought this rare collection of the late author's writings contains several never before published articles and offers an in depth look at the many facets of the samkhya the cosmologic doctrines of the shaivite tradition daniélou provides important revelations on subjects such as the science of dreams the role of poetry and sexuality in the sacred the personality of the great shankara and the shaivite influence on the scythians and the parthians and by extension the hellenic world in general providing a convincing argument in favor of the polytheistic approach he explains that monotheism is merely the deification of individualism the separation of humanity from nature and that by
