The American Journey 1998

the american journey introduces readers to the key features of american political social and economic history written in a clear engaging style with a straightforward chronological organization it provides readers with a solid framework for understanding the past it gives prominent coverage to the west and south and highlights the importance of religion in american history it traces the emergence of distinctively american ideals and the way the conflict between those ideals and reality has shaped our nation s development it brings alive the crucial issues and events behind the continuing effort of americans to live up to their ideals

Annual Report on British New Guinea from ... with Appendices 1898

as long as the human species has existed men and women have had to contend with the unpredictable forces of nature geographer barry a vann brings a unique perspective to this age old struggle in this illuminating overview of human population shifts and their precarious relationship with climate change and geography vann takes us on a journey along the migration routes of the earliest modern humans and tells why our ancestors chose to settle down in places that can be best described as natural utopias in the religiously oriented worldview of ancient peoples such places took on a sacred aura of divine favor similarly destructive events such as volcanic eruptions and earthquakes were interpreted as expressions of divine wrath vann shows how the ancient texts of the bible and the qur an offer glimpses of past climates that were distinctly different from the climate of our time he also discusses the rise of technology as a means of controlling the threatening features of the natural world though technology has enabled humanity to cope with hostile climates it has also created a false sense of security vann notes that population clusters are increasing in dangerous areas and that no technology can protect vulnerable groups from major category hurricanes tornadoes or earthquakes finally he considers our current anxieties regarding global warming pointing out that this focus has obscured a good deal of historical and geological evidence for a return of another ice age the forces of nature offers a challenging perspective on the precarious balance between fragile human communities and their often threatening environments

Forces of Nature 2012-03-20

for the past three decades many history professors have allowed their biases to distort the way america s past is taught these intellectuals have searched for instances of racism sexism and bigotry in our history while downplaying the greatness of america s patriots and the achievements of dead white men as a result more emphasis is placed on harriet tubman than on george washington more about the internment of japanese americans during world war ii than about d day or iwo jima more on the dangers we faced from joseph mccarthy than those we faced from josef stalin a patriot s history of the united states corrects those doctrinaire biases in this groundbreaking book america s discovery founding and development are reexamined with an appreciation for the elements of public virtue personal liberty and private property that make this nation uniquely successful this book offers a long overdue acknowledgment of america s true and proud history

A Patriot's History of the United States 2014-11-25

homesteading the plains offers a bold new look at the history of homesteading overturning what for decades has been the orthodox scholarly view the authors begin by noting the striking disparity between the public s perception of homesteading as a cherished part of our national narrative and most scholars harshly negative and dismissive treatment homesteading the plains reexamines old data and draws from newly available digitized records to reassess the current interpretation s four principal tenets homesteading was a minor factor in farm formation with most western farmers purchasing their land most homesteaders failed to prove up their claims the homesteading process was rife with corruption and fraud and homesteading caused indian land dispossession using data instead of anecdotes and focusing mainly on the nineteenth century homesteading the plainsdemonstrates that the first three tenets are wrong and the fourth only partially true in short the public s perception of homesteading is perhaps more accurate than the one scholars have constructed homesteading the plainsprovides the basis for an understanding of homesteading that is startlingly different from current scholarly orthodoxy

Proceedings of the Parliament of South Australia 1884

almost all aliens offers a unique reinterpretation of immigration in the history of the united states leaving behind the traditional melting pot model of immigrant assimilation paul spickard puts forward a fresh and provocative reconceptualization that embraces the multicultural reality of immigration that has always existed in the united states his astute study illustrates the complex relationship between ethnic identity and race slavery and colonial expansion examining not only the lives of those who crossed the atlantic but also those who crossed the pacific the caribbean and the north american borderlands almost all aliens provides a distinct inclusive analysis of immigration and identity in the united states from 1600 until the present for additional information and classroom resources please visit the almost all aliens companion website at routledge.com/textbooks/almostallaliens

Journal of the Elder Exploring Expedition, 1891 2021-11-09

contributions by catherine clinton joseph crespino jane dailey lisa lindquist dorr anya jabour john f kasson jennifer ritterhouse and charles f robinson ii the concept of southern manners may evoke images of debutantes being introduced to provincial society or it might conjure thoughts of the humiliating behavior white supremacists expected of african americans under jim crow the essays in manners and southern history analyze these topics and more scholars here investigate the myriad ways in which southerners from the civil war through the civil rights movement understood manners contributors write about race gender power and change essays analyze the ways southern white women worried about how to manage anger during the civil war the complexities of trying to enforce certain codes of behavior under segregation and the controversy of college women s dating lives in the raucous 1920s writers study the background and meaning of mardi gras parades and debutante balls the selective enforcement of anti miscegenation laws and arguments over the form that opposition to desegregation should take concluding essays by jane dailey and john f kasson summarize and critique the other articles and offer a broader picture of the role that manners played in the social history of the south

History of West Australia 1897

with the increasing demands for changes in how we vote the authors analyze the complications of race tied to these proposed policies through historical and contemporary challenges why does race play such a discursive role when it comes to the right to vote lawmakers are continuing to propose changes to voting rights policies that directly impact african americans and the emerging latino electorate ranging from issues like voter identification laws accusations of voter fraud and voting rights for convicted felons this single volume provides an in depth analysis regarding the various racial dimensions embedded in cases of public policy by highlighting the origination and evolution of the voting rights act of 1965 voting rights under fire the continuing struggle for people of color demonstrates the still prevalent issues around voting and people of color this work will provide readers an accessible interdisciplinary book that interconnects past and present issues involving political debates public policy and court decisions pertaining to race and voting rights in america
