emulator is a supplement meant to be played with your favorite role playing games most role playing games operate under the principle that there are players and there is a game master the gm prepares all the details of an adventure and then runs the players through that adventure this usually requires a great deal of preparation on the part of the gm mythic is different in that it requires no preparation from the gm mythic adventures are meant to be played off the cuff with perhaps a few minutes of brainstorming to come up with the initial setup mythic can also be played entirely without a gm the same mechanics in mythic that allow a gm to run an adventure without preparation also allows a group of players to do without the gm in a mythic adventure the gm or players without a gm can start an evening s entertainment with about five minutes of preparation as the adventure unfolds the gm is just as surprised by the twists and turns as the players are there are various ways in which mythic can be used no gm multiple players players decide on an opening scenario and perhaps a few details or two and mythic takes it from there all action is decided through the asking of yes no questions and the application of logical principles by answering questions the adventure moves along with the occasional random event throwing players a curve ball the action is broken into scenes just like in a movie to keep everything straight no gm one player mythic can be used to go solo solo play in mythic works the same as group play you re just alone one gm any number of players for those who like to be a gm we have something for you too the same tools that allow mythic to automatically generate adventures on the fly without a gm also work with a gm this means very little to zero preparation if you don t want to prepare simply create an opening scenario hey you can come up with that on the drive over and follow mythic as it guides you along mythic will throw in its own twists and turns so the gm will be just as shocked as the players

of brainstorming to come up with the initial setup mythic can also be played entirely without a gm the same mechanics in mythic that allow a gm to run an adventure without preparation also allows a group of players to do without the gm in a mythic adventure the gm or players without a gm can start an evening s entertainment with about five minutes of preparation as the adventure unfolds the gm is just as surprised by the twists and turns as the players are there are various ways in which mythic can be used no gm multiple players players decide on an opening scenario and perhaps a few details or two and mythic takes it from there all action is decided through the asking of yes no questions and the application of logical principles by answering questions the adventure moves along with the occasional random event throwing players a curve ball the action is broken into scenes just like in a movie to keep everything straight no gm one player mythic can be used to go solo solo play in mythic works the same as group play you re just alone one gm any number of players for those who like to be a gm we have something for you too the same tools that allow mythic to automatically generate adventures on the fly without a gm also work with a gm this means very little to zero preparation if you don t want to prepare simply create an opening scenario hey you can come up with that on the drive over and follow mythic as it guides you along mythic will throw in its own twists and turns so the gm will be just as shocked as the players
