presently we stand on the threshold of a technological revolution that will drastically change the way we live work and communicate with each other by the current rate scope and complexity this transformation will be as fundamental for society as any other technological paradigm change from the past the industries which are more susceptible to change are technologically oriented industries including banking finance accounting and auditing one of the technological concepts of the technological revolution is the concept of the digital twin the application of digital twins and ai as paired in the growth of net of things technologies makes it possible

to solve esg problems on a completely different level  
li 2019 for accounting firms and financial institutions  
these include recycling on demand rational energy  
consumption smart surveillance cameras for crime  
tracking and smart branch parking solutions monitoring  
the wear and tear and conditions of financial  
technology infrastructures moreover numerous  
researchers and practitioners emphasize the  
significance of innovating sustainable business models  
and operations geissdoerfer et al 2018 the digital twin  
will allow businesses and financial institutions to  
minimize costs boost customer service and find new ways  
to generate revenue dtw is accessible now more than  
ever and many reputable and innovative companies such  
as tesla ericsson and siemens have adopted it with  
varying success therefore this book examines the  
opportunities challenges and risks of artificial  
intelligence augmented digital twins for financial  
operations innovation and sustainable development it  
focuses on ai and digital twin technologies to furnish  
solutions for the current industrial revolution  
including the metaverse henceforth this book aims to  
encourage authors to submit multi disciplinary chapters  
indicating the current scholarly challenges about the  
applications and potential of artificial intelligence  
and digital twins in accounting finance and banking  
since xi jinping s accession to power in 2012 nearly  
every aspect of china s relations with africa has grown  
dramatically beijing has increased the share of  
resources it devotes to african countries expanding  
military cooperation technological investment and  
educational and cultural programs as well as extending  
its political influence this book examines the full  
scope of contemporary political and security relations  
between china and africa david h shinn and joshua  
eisenman not only explain the specific tactics and  
methods that beijing uses to build its strategic  
relations with african political and military elites  
but also contextualize and interpret them within china  
s larger geostrategy they argue that the priorities of  
chinese leaders including the conflation of threats to  
the communist party with threats to the country a  
growing emphasis on relations in the global south and a  
2023-01-27 untinger u s henry have combined to  
2/16

elevate africa s importance among policy makers in  
 beijing ranging from diplomacy and propaganda to arms  
 sales and space cooperation from increasingly frequent  
 people s liberation army navy port calls in africa to  
 the rising number of african students studying in china  
 this book marshals extensive and compelling qualitative  
 and quantitative evidence of the deepening ties between  
 china and africa drawing on two decades of systematic  
 data and hundreds of surveys and in person interviews  
 shinn and eisenman shed new light on the state of china  
 africa relations today and consider what the future may  
 hold
