Aviator's Guide to Navigation 1978-07 the road isn't an easy place to thrive and survive there are many things to think about before and after you leave the driveway with your band the purpose of this book is to address the before parts Jeff Coffin covers 40 topics with insight humor practicality and lots of road wisdom

Frameworks 1979 the jargon free guide to celestial navigation know what to do step by step understand why you're doing it and be confident that you can put it into practice when on board did you know that a person standing on the equator is effectively travelling at 900mph and did you know that you can use this information to work out where you are in the world to an accuracy of about 3-4 miles no GPS no computers just a sextant some tables from an almanac and the knowledge in this book it's the only back up if the GPS goes down so it's a matter of safety so if you want to qualify as a commercial skipper superyacht captain you need to know how to carry out celestial navigation and if you want to pass the RYA Ocean Yachtmaster exam you need to know it too it's a major stumbling block for many sailors wanting or needing to take their next qualifications and the other books on the market are complex and often assume some prior understanding this book fulfils the need for a jargon free explanation of celestial navigation illustrated with colour diagrams and including unique checklist sheets to enable you to repeat all those calculations you learned back at home when you're on deck without overwhelming the reader with a load of theory from the off the author breaks down what you need to do step by step explaining why at every point giving the information context and making it more interesting and memorable he has trained students in this subject for years and here he's able to use his

experiences of what works and what are the common pitfalls he even includes a what went wrong chapter near the end going through errors commonly made and how to spot them the objective is that readers will finish the book not only knowing what to do but really understanding why and being able to make sense of it all again later rather than just getting through and exam and finding themselves at a loss when on deck the author also includes time tested proformas quick reference sheets that sailors can refer to when they come to putting the theory into practice on board avoiding the terrifying cold start that most sailors experience when they suddenly need to put theory into practice

Essentials of Navigation 2012-09-05 navigate pre intermediate is suitable for cefr level b1 navigate is a brand new six level general english course tailored exclusively to adults the course takes an innovative approach to reading and listening based on academic research as to how adults best learn languages the b1 teacher s guide gives a clear overview of each unit including a fast track version for shorter courses it includes extensive lesson notes with additional pedagogical support offering tips on areas such as differentiation critical thinking and smart communication find photocopyables for extra grammar vocabulary and communication practice in each unit plus vox pop video worksheets teacher support and resource disc includes unit tests progress tests end of course tests all photocopyable activities from the teacher s guide wordlists all video from the coursebook as well as lesson overview videos from catherine walter extra resources and support on the teacher s website are designed to make lesson planning easier
