this book brings together an international group of scholars to offer new perspectives on the political impact and afterlife of the dictator lucius cornelius sulla felix 138 78 b c one of the most important figures in the complex history of the last century of the roman republic it looks beyond the march on rome the violence of the proscriptions or the logic of his political reforms and offers case studies to illustrate his relations with the roman populace the subject peoples of the greek east and his own supporters both veterans and elites highlighting his long term political impact and at times the limits on his exercise of power the chapters on reception reassess the good bad dichotomy of sulla as tyrant and reformer focusing on cicero while also examining his importance for sallust and his characterisation as the antithesis of philhellenism in greek writers of the imperial period sulla was not straightforward either as a historical figure or exemplum and the case studies in this book use the twin approach of politics and reception to offer new readings of sulla s aims and impact both at home and abroad and why he remained of interest to authors from sallust to plutarch and aelian

## **The English Cyclopedia 1872**

this volume focuses on the making nature and role of the first modern constitutions at the founding of the modern nation states in southeast asia these historical essays add richly to our understanding and appreciation of the founding moments and to the theory and practice of constitutionalism in these states this volume makes three significant contributions first it helps plug the wide knowledge gap in comparative constitutional history in southeast asia second it furthers our understanding of contemporary constitutional practice and also anticipates possible developmental trajectories in light of the foundational values embedded in and manifested through these constitutions third through the comparative historical study of these early constitutions plausible theoretical insights may be gained to further our understanding of southeast asia s constitutional history the book is essential reading for those wishing to obtain a deeper understanding of the constitutional foundings of southeast asia

## **Reports ... 1875**

this is a non fiction biographical book about some of my direct ancestors and their relatives who stood up for justice and equality and against racism and oppression between the years of 1748 and 1935 the topics include indigenous land rights struggles

---

the original spirit and egalitarian goals of the american revolution before that movement was co opted and sabotaged by the plantation aristocrats and capitalists the anti slavery movement race theory and racial identities and the ever present american anti racism and equality movements most of the action in these stories took place in southeastern massachusetts our wampanoag homelands but also in other new england locations and in texas new orleans and california many of these complex identity people of color were abolitionists before the civil war

## **The New England Historical and Genealogical Register 1891**

the circle of knowledge is an informative book that was designed in 1917 to be both inspiring and entertaining the book represents the modern progressive spirit which fits that time in its forms of expression and its editorship the purpose of this work is to answer the why who what when where how of the wide majority of curious minds both young and adult and encourage them to raise further questions special measures were taken in creating this work to isolate essentials from non essentials to differentiate human interest subjects of universal significance from those of little concern to deliver living truths instead of dead vocabulary and finally to bring the whole within the knowledge of the intermediate reader without regard to age in an acceptable and exciting form the use of visual outlines and tables maps drawings and diagrams the illustrated works of great painters sculptors and architects all are used to give the reader the valuable and cultural knowledge of past and present

## **Proceedings of the Annual Meeting 1880**

this book offers a diversification model of transplanted languages that facilitates the exploration of external factors and internal changes the general context is the new world and the variety that unfolded in the central highlands and the gulf of mexico herein identified as mexican colonial spanish mcs linguistic corpora provide the evidence of re transmission diffusion metalinguistic awareness and select focused variants the tridimensional approach highlights language data from authentic colonial documents which are connected to socio historical reliefs at particular periods or junctions which explain language variation and the dynamic outcome leading to change from the second letter of hernán cortés seville 1522 to the decades preceding mexican independence 1800 1821 this book examines the variants transplanted from the peninsular tree into mesoamerican lands leveling of sibilants of late medieval spanish direct object masc sing pronouns lo and le pronouns of address vos tu vuestra merced plus plurals imperfect subjunctive endings in se and ra and amerindian loans qualitative and quantitative analyses of variants derived from the peninsular tree show a gradual process of attrition and recovery due to their saliency in the new soil where they were identified with ways of speaking and behaving like spanish speakers from the metropolis the variants analyzed in mcs may appear in other regions of the spanish speaking new world where change may have proceeded at varying or similar rates additional variants are classified as optimal residual e g dizque and popular residual e g vide both types are derived from the medieval peninsular tree but the former are vital across regions and social strata while the latter may be restricted to isolated and or marginal speech communities each of the ten chapters probes into the pertinent variants of mcs and the stage of development by century qualitative and quantitative analyses reveal the trails followed by each select variant from the years of the second letter 1520 1522 of hernán cortés to the end of the colonial period the tridimensional historical sociolinguistic model offers explanations that shed light on the multiple causes of change and the outcome that eventually differentiated peninsular spanish tree from new world spanish

---

focused attrition variants were selected because in the process of transplantation speakers assigned them a social meaning that eventually differentiated the European from the Latin American variety. The core chapters include narratives of both major historical events e.g. the conquest of Mexico and tales related to major language change and identity change e.g. the socio-political and cultural struggles of Spanish speakers born in the New World. The core chapters also describe the strategies used by prevailing Spanish speakers to gain new speakers among the indigenous and Afro-Hispanic populations such as the appropriation of public posts where the need arose to file documents in both Spanish and Nahuatl. Forced and free labor in agriculture, construction and the textile industry. The examples of optimal and popular residual variants illustrate the trends unfolded during three centuries of colonial life. Many of them have passed the test of time and have survived in the present Mexican territory. Others are also vital in the U.S. southwestern states that once belonged to Mexico. The reader may also identify those that are used beyond the area of Mexican influence. Residual variants of New World Spanish not only corroborate the homogeneity of Spanish in the colonies of the Western Hemisphere but the speech patterns that were unwrapped by the speakers since the beginning of colonial times. Popular and cultured Spanish point to diglossia in monolingual and multilingual communities. After one hundred years of study in linguistics, this book contributes to the advancement of newer conceptualization of diachrony which is concerned with the development and evolution through history. The additional sociolinguistic dimension offers views of social significance and its thrilling links to social movements that provoked a radical change of identity. The amplitude of the diversification model is convenient to test it in varied contexts where transplantation occurred.

## **Lippincott's Gazetteer of the World 1896**

a fascinating and unbiased account of the Swiss people, their history and customs, their literature, art and science, religious turmoil and economic problems. Don't sell this as a travel book. Actually, I could wish for a little more of that aura, but since it is not intended as such, that is mere quibbling. For here is an intellectual approach to the history, the geography, the political structure of a country that in many ways might serve as a microcosm of world federation in action. But the author has approached the subject realistically and torn off the overlay of legend and story, showing a small country protected from encroachments by its geographic expression but far from being an oasis of peace. The cantons warred one with another, religious wars and civil wars tore them internally. The Catholic cantons attempted secession in 1848 and only then were the two major segments, Catholic and Protestant, brought together under one constitution. There were internecine class wars constantly, but by the end of the 15th century common sense dictated a common military organization of defense. Only to have the Reformation rip them asunder again. Finally, the Congress of Vienna established the boundaries. Successive popular legends are gently dissected and disproved, and full circle is traced to Switzerland, progresses from a peasant economy to conquerors, soldiers of fortune, state monopolies and back to unity of farmers and merchants. Names in the Hall of Fame: Voltaire, Rousseau, Amiel, and other writers: Pestalozzi, Henri Dumon, Zwingli. Names internationally known in their fields, brief biographies integral to the overall picture of a people in a chronic state of political excitement but yet able to evolve an aesthetic and cultural life and a reputation for stability. Plenty of controversial but revealing material here, scholarly without being pedantic in style. Kirkus reviews.
