Social Studies Teaching Activities Books 2006 an annotated listing of activities books for use with social studies curriculums focusing on elementary and middle school grades arranged by curriculum area topic and grade level includes contact information for publishers and distributors of appropriate books and an index

Top Shelf 2003 covers populations and samples tests chi square tests exact probability tests and more encourages students to seek new avenues in problem solving prepares students for standardized tests adheres to national mathematics standards

10-Minute Critical-Thinking Activities for English 1998 for teachers who need to fill in between time these puzzles games stories and brain teasers sharpen your students focus the titles say it all decomposition nab the kidnapper peanut butter is don t bug me and 52 more includes answer key see other 10 minute critical thinking activities titles

Fingering Practice for Beginning Bands 1994 reinforce fingering skills in all your beginning band students teaches with graphic depictions of instruments contains worksheets for flute clarinet saxophone trumpet trombone snare drum and more includes teaching tips and answers

Word Problems with Fractions 1999 prepares all students for standardized testing builds essential critical thinking and problem solving skills provides real life situations for meaningful connections to science computer science math history and other topics see other word problems titles

Calculator Quickies: Patterns, Puzzles, and Problems 1995-10-01 patterns explore unusual number relationships series and sequences and squares and square roots puzzles include mystery numbers number tricks secret numbers and cross math puzzles problems set in interesting situations have students apply strategies and use calculators appropriately to find solutions

Activities for Economics Education 2000-09 bring hands on activities into your economics classroom with these engaging investigations your students will explore a variety of concepts from supply and demand to inflation to foreign trade designed to complement any economics curriculum these 21 ready to use activities will add a new dimension to your classes

Top Shelf 2003 covers derivatives and integrals of exponential and logarithmic functions related rates and volumes and more provides unique mathematical challenges to engage students

Word Problems with Decimals, Proportions, and Percents 1999 prepares all students for standardized testing builds essential critical thinking and problem solving skills provides real life situations for meaningful connections to science computer science math history and other topics see other word problems titles

Word Problems with Whole Numbers 1999 using this high interest low vocabulary reproducible any math student can master essential problem solving skills whole number addition subtractions multiplication and division skills are learned then applied to solve interesting and real life word problems

61 Cooperative Learning Activities for Geometry Classes 1998 explores key concepts including angles perimeter 3 dimensional geometry triangles and more demonstrates how each activity correlates with the nctm standards includes step by step procedures suggested materials and notes on effective group strategies

Catalog of Copyright Entries. Third Series 1976 covers exponential and logarithmic functions matrices and determinants sequences and series and more presents multiple opportunities for creative problem solving

Top Shelf 2003 builds understanding in 44 topics including our solar system star s life cycle celestial objects stargazing and more develops science process skills through hands on investigations

Astronomical! 1995 defines key terms and provides useful relevant examples accommodates a wide range of student needs through flexible practice provides lessons appropriate for home or classroom use

Walch Toolbook 1998 designed to help students master the essentials of map reading and interpretation p vii

Geography Skills Activities 1997 enhance your students independent living skills and help them build calculator proficiency with calculators at work in daily living your students will get first hand experience in the ways in which calculator use can improve efficiency and make math related tasks in the home around town and on the job easier and faster in addition they will develop important math skills and see the ways in which math is used in daily living

Maximum Math 2004 covers all significant eras of global history encourages students to analyze evidence documents and other data to make informed decisions develops essential writing skills

Calculators at Work in Daily Living 2001 features a full year s worth of ready to use spelling lessons worksheets quizzes and review tests helps students master spelling through varied reinforcement activities engages students with lively easy to use resources

Hamlet 2003 the book contains papers from the proceedings of the 3rd international meeting of origami science math and education sponsored by origamiusa they cover topics ranging from the mathematics of origami using polygon constructions and geometric projections applications and science of origami and the use of origami in education

Document-Based Assessment Activities for Global History Classes 1999 volume 1 covers core publishing industry information book publishers editorial services and agents associations events courses and awards and books and magazines for the trade volume 2 contains information on service providers and suppliers to the publishing industry advertising marketing and publicity book manufacturing sales and distribution and services and suppliers can be found in this volume entries generally contain name address telephone and other telecommunications data key personnel company reportage branch offices brief statistics and descriptive annotations where applicable standard address numbers sans have been included sans are unique numbers assigned to the addresses of publishers wholesalers and booksellers publishers entries also contain their assigned isbn prefixes

Spelling Demons Week by Week 1997 provides reproducible worksheets designed to introduce reinforce and assess students understanding of vocabulary and decoding skills such as how to classify words and use analogies prefixes and suffixes and form contractions

Critical Thinking Using Primary Sources in U.S. History 2000-08 covers significant eras in u s history encourages students to analyze evidence documents and other data to make informed decisions includes guidelines for students answer prompts and a scoring rubric develops essential writing skills

Origami 2002-07-18 builds decision making skills and teaches students how to establish a budget reconcile a bank statement complete a job application and much more includes teacher pages with quizzes and suggestions for extension activities

LMP 2007 2006 contains lessons about algebraic equations and inequalities along with reproducible extension activities reproducible tests and answer keys

Vocabulary Power: Successful Strategies for World Mastery 1998 unlike most textbooks that focus only on the technical points these 50 worksheets go beyond basic term paper mechanics to help students overcome obstacles that cause stress and writing blocks they offer practical strategies for students most common problems such as negative self talk trouble budgeting time procrastination being blocked for ideas or getting bogged down in research topics present the entire research and writing processes in easy manageable steps

Introduction to Geometry 2000 covers a wide variety of topics including understanding patterns using algebraic symbols solving problems with graphs tables and equations and more works as an end of class activity extra credit or at home assignment includes teaching suggestions skills matrix and answer section

Document-based Assessment Activities for U.S. History Classes 1999 covers the earth s crust and interior weather and climate the solar system the universe and more includes engaging lab activities that are out of this world
