and phase with engaging anecdotes from the author's extensive personal teaching experience woven throughout as well as accessible summaries of relevant research. Alex Quigley has written an invaluable resource suitable for classroom teachers across all phases, literacy leaders and senior leadership teams who wish to close the vocabulary gap. A bullet dropped and a bullet fired from a gun will reach the ground at the same time. Plants get the majority of their mass from the air around them, not the soil beneath them. A smartphone is made from more elements than you. Every day science teachers get the opportunity to blow students' minds with counter-intuitive, crazy ideas like these, but getting students to understand and remember the science that explains these observations is complex. To help, this book explores how to plan and teach science lessons so that students and teachers are thinking about the right things, that is, the scientific ideas themselves. It introduces you to 13 powerful ideas of science that have the ability to transform how young people see themselves and the world around them. Each chapter tells the story of one powerful idea and how to teach it, alongside examples and non-examples from biology, chemistry, and physics to show what great science teaching might look like and why. Drawing on evidence about how students learn from cognitive science and research from science education, the book takes you on a journey of how to plan and teach science lessons so students acquire scientific ideas in meaningful ways, emphasizing the important relationship between curriculum, pedagogy, and the subject itself. This exciting book will help you teach in a way that captivates and motivates students, allowing them to share in the delight and wonder of the explanatory power of science. This practical resource will help K-6 practitioners grow their literacy practices while also meeting the needs of emergent bilingual learners. Building on the success of the Reading Turn Around, this book adapts the five-part framework for reading instruction to the specific needs of emergent bilinguals designed for teachers who have not specialized in bilingual instruction. The authors provide an accessible introduction to differentiating instruction that focuses on utilizing students' strengths, identities, and cultural backgrounds to foster effective literacy instruction. Chapters include classroom vignettes, teacher exercises, illustrations of powerful reading plans for the student and teacher, resources for culturally and linguistically diverse children's literature, and tools to engage with students, families, and communities. Emergent bilinguals are the fastest growing population in our schools, and this important resource equips literacy educators with tools for providing equitable literacy experiences for emergent bilingual students. The authors have done an exceptional job of presenting their Turn Around framework in a way that not only puts forth a vision for effective language and literacy development but also presents a practical

approach for applying the framework in today's multilingual multicultural classrooms jana echevarria professor emerita california statute university long beach this open access book describes the reading success project in which a 5 step assessment to intervention process based on the simple view of reading was used within a primary school setting in australia to better support those students who struggle with reading it provides an easily accessible overview of each step of the process involved in implementing this approach and highlights the crucial importance of collaboration between professionals involved in the teaching of reading within a school setting it focuses on the decision making processes used such as rich dialogue with the leadership team and teachers and shares participants perspectives gathered throughout the project using case studies the book describes how the 5 step approach assists in creating detailed profiles of students strengths and weaknesses in spoken and written language skills that can be used to guide targeted intervention this book offers valuable insights for educators speech pathologists researchers and pre service teacher education students interested in the teaching of reading from the pages of teaching for high potential a quarterly publication of the national association for gifted children this collection of articles is sure to be of use to any educator of high ability students topics included range from instructional methods across all content areas including tips and tools for reading and vocabulary instruction integrating stem content and engaging students in math to identification differentiation and addressing gifted students social emotional needs articles also delve into current issues pertinent to the field of gifted education and this unique group of students including underachievement and underrepresented minority populations as well as new classroom strategies such as makerspaces and teaching growth mindset this resource can be used to enhance a classroom lesson guide curriculum development or supplement professional development the featured articles are unique well written for the audience and selected by reviewers who understand what teachers need by now it's a given if we're to help our kids and ourselves access the rigorous demands of today's content standards we must cultivate the code that drives school success academic language look no further for assistance than this much anticipated series from ivannia soto in which she invites field authorities jeff zwiers david and yvonne freeman margarita calderon and noma lemoine to share every teacher's need to know strategies on the four essential components of academic language the subject of this volume is vocabulary here margarita calderon reveals how vocabulary is best taught as a tool for completing and constructing more complex messages with this book as your roadmap you'll learn how to teach high frequency academic words and discipline specific vocabulary across content areas

utilize strategies for teaching academic vocabulary moving students from tier 1 to tiers 2 and 3 words and selecting appropriate words to teach assess vocabulary growth as you go our vocabulary instruction must come from the texts our ells and sels are about to read not from a set of activities that teach words in isolation this guidebook will help you get started as early as tomorrow better yet read all four volumes in the series and put in place an all in one instructional plan for closing the achievement gap this book provides a unique analysis and description of the linguistic challenges faced by school students as they move from primary to secondary school a major transition which some students struggle with emotionally and academically the study draws on a bespoke corpus of 2 5 million words of written materials and transcribed classroom recordings provided by the project s partner schools combines quantitative and qualitative approaches to the corpus data to explore linguistic variation across school levels registers and subjects describes the procedures of corpus compilation and analysis of written and spoken academic language showing how modern corpus tools can be applied to this far reaching social and educational issue uncovers differences and similarities between the academic language that school children are exposed to at primary and secondary school contrasting this against the backdrop of the non academic language that they encounter outside school this book is important reading for advanced students and researchers in corpus linguistics applied linguistics and teacher education it carries implications for policymakers and schools looking to support students at this critical point in their schooling this book is a road map for teachers and school leaders who need to meet the needs of increasing numbers of newcomers and other english learners els the authors draw from years of experience in working with listening to and coaching administrators teachers and coaches nationwide to help you develop and implement an effective plan for your school beginning with the core belief that getting to know the student is pivotal the authors show how to address both the academic and the social needs of newcomers to help them integrate and excel from their first day of school the main components of the plan are the following identifying your students and assessing educational and socioemotional needs identifying qualified teachers and staff developing highly effective programs for newcomers and other els accelerating english learners acquisition of language literacy and knowledge through proven classroom teaching techniques supporting newcomers socioemotional well being through classroom and administrative structures designing implementing and sustaining professional development for all staff if you already have a plan for integrating newcomers and els you can use the information in this book to assess and strengthen it and to learn more about resources

for continued coaching and growth whether your school has a formal plan or not the information in this practical guide can help your staff better collaborate to attend to the needs and build on the strengths of newcomers and els in your school the field of early literacy has seen significant recent advances in theory research and practice these volumes bring together leading authorities to report on current findings integrate insights from different disciplinary perspectives and explore ways to provide children with the strongest possible literacy foundations in the first 6 years of life the handbook first addresses broad questions about the nature of emergent literacy summarizing current knowledge on cognitive pathways biological underpinnings and the importance of cultural contexts chapters in subsequent sections examine various strands of knowledge and skills that emerge as children become literate as well as the role played by experiences with peers and families particular attention is devoted to the challenges involved in making schools work for all children including members of linguistic and ethnic minority groups and children living in poverty finally approaches to instruction assessment and early intervention are described and up to date research on their effectiveness is presented the perfect way to study for virginia s elementary education and special education reading teacher certification test with subject reviews and two model practice tests focusing on what entry level virginia elementary and special education teachers need to be certified to teach this test prep guide includes targeted strategies for the selected response and constructed response questions and reviews of every test specification a candidate will be tested on including instructional process assessment and diagnostic teaching oral language and communication reading development and writing and research the two practice tests are full length model exams that include answers and explanations to help candidates succeed when they take the test have you ever wondered why your students don t revise or why they revise ineffectively often they simply don t know how this is where the revision revolution comes in what if instead of just telling students to revise we taught them explicit study skills from year 7 what if we made revision enjoyable even irresistible the aim is not just to help students pass exams but to embed their learning and help them grow into knowledgeable and informed young adults in this book helen howell and ross morrison mcgill guide you step by step through how to start and sustain a revision revolution in your school building a culture of effective study that flows through all aspects of school life the common core state standards present unique demands on students ability to learn vocabulary and teachers ability to teach it the authors address these challenges in this resource work toward the creation of a successful vocabulary program guided by both academic and

content area terms taken directly from the mathematics and english language arts standards retool your whole school for el achievement for any student middle and high school can be challenging but for an english learner or striving reader and the myriad words phrases syntax texts and concepts they must negotiate on a daily basis the stakes seem a whole lot higher fortunately for content area teachers margarita calderón and shawn slakk make available in a single resource all the best instructional and professional development combinations for expediting comprehension across the secondary grades really a tool to assist all learners across all language needs the second edition of teaching reading to english learners grades 6 12 provides evidence based strategies for helping content area teachers and schools at large teach academic language in all subject areas embed discourse practice through interaction strategies integrate basic and close reading comprehension skills into lessons teach drafting revising and editing for content specific writing use cooperative learning to develop social emotional skills and enhance academic achievement calderón and slakk know firsthand that if we re to counter the commonly held narrative of predictable failure among our els it takes a whole school and they have the evidence to prove it read teaching reading to english learners grades 6 12 implement its strategies across all classrooms and soon enough you too will maximize the comprehensions skills so critical to our els long term success actively engage students in their own learning discover strategies to promote student mastery of the common core state standards for english language arts across the curriculum explore techniques to lead students in close reading activate their background knowledge to prepare them for learning and gain insight into habit formation you ll develop the know how to effectively structure teaching to empower all students this ebook version includes the following enhancements interactive features and links to the up to date companion website with more strategies and examples of practice and student work this book s unique and engaging voice supported by its many resources will help future and in service teachers bring the language arts to life in their own classrooms this book helps readers envision their future classrooms including the role technology will play as they prepare to be successful teachers comprehensively updated the second edition addresses new demands on teaching in traditional and virtual ela classrooms and the new ways technology facilitates effective instructional practices organized around the receptive language arts the way learners receive information and the expressive language arts the way leaners express ideas chapters cover all aspects of language arts instruction including new information on planning and assessment teaching reading and writing fundamentals supporting ells dyslexic and dysgraphic learners using digital tools and more in
