sleight of mouth is about the magic of words and language language is one of the key representational systems from which we build our mental models of the world and has a tremendous influence upon how we perceive and respond to the world around us as sigmund freud pointed out words and magic were in the beginning one and the same thing the right words at the right time can be uplifting changing the course of someone s life for the better opening up new vistas and possibilities unfortunately words can also confuse and limit us as easily as they can empower us the wrong words at the wrong time can be hurtful and damaging sleight of mouth patterns come from the study of how language has been and can be used to make an impact on people s lives and emotions this book represents over twenty years of study and practice with respect to the influence of language and its potential to change our lives author robert dilts whose other works include visionary leadership skills strategies of genius dynamic learning and modeling with nlp has examined the language patterns of people such as socrates abraham lincoln mahatma gandhi adolph hitler milton erickson and jesus of nazareth sleight of mouth patterns are made up of verbal categories and distinctions by which key beliefs can be established shifted or transformed through language generally sleight of mouth patterns can be characterized as verbal reframes which influence beliefs and the mental maps from which beliefs have been formed these patterns provide a powerful tool for persuasion and conversational belief change this book is about the power of words to be either helpful or harmful the distinctions that determine the type of impact words will have and the language patterns through which we can transform harmful statements into helpful ones sleight of mouth is about how words create worlds language is a pivotal part of how we humans create our maps of reality changing the words we use can shift the reality that we perceive glaube versetzt berge so heißt es schon in der bibel und irgendwie ist das ja auch richtig im arbeitsheft glaubenssysteme haben wir einen ersten und ausführlicheren blick in diese systeme von glauben und unglauben geworfen und können jetzt vielleicht besser verstehen wie diese systeme entstanden und immer wieder aufs neue entstehen wir können begreifen wozu sich derlei systeme in unserem hirn entwickeln und können unterm strich eigentlich ganz dankbar über deren doch recht effiziente funktionsweisen sein nur was geschieht wenn diese beliefssysteme statt uns reaktionsschnell durchs leben zu lotsen plötzlich beginnen uns zu behindern was tun wenn wir in einem gespräch keinen schritt mehr vorankommen weil unser gesprächspartner nicht mehr in der Lage ist einen nächsten vernünftigen schritt weiter zu gehen was tun wenn im verkaufsgespräch unser kunde einfach kein koreanisches auto kaufen will weil die ja sowieso noch nie mit qualität aufwarten konnten neben dem erkennen von glaubenssystemen und ihren einzelnen glaubenssätzen möchte ich dir in diesem arbeitsheft eine strategie vorstellen mit diesen behindernden oder unerwünschten systemen ganz elegant zu arbeiten sie ins wanken zu bringen und im besten fall sie sich sogar zum auflösen zu überreden diese kommunikationsstrategie nennt man sleight of mouth und dient dem einzigen zweck die innere realität die durch einen glaubenssatz entsteht zu verändern dieses arbeitsheft iiia2 aus der reihe verbale manipulation strategien führt die in reihe i grundlagen hirnmechanik begonnene arbeit zu
